Good Morning Mr. Dodge,

I have attached three quotes for roof replacement for Building (36) 911 Poinciana Drive on the grounds of the Howard C. Forman Health Park. This building houses our City maintenance staff and supplies and is currently Blue Tarpred.

I have meet with Dan Rotstein and Bob Aguirra and have completed and submitted all appropriate paper work in an effort to comply with State and Federal insurance requirements.

The State has agreed to a payment of approximately \$28,000 and Mr. Aguirra will follow up with FEMA to file a claim for the difference of the cost versus what the State will pay.

I am requesting your approval to bring this item before Commission, so that that we may move forward with the roof replacement.

Respectfully Submitted
