Subject: FPL

Importance: High

Good morning.

Please be advised FPL contractor has begun digging up front yards to install underground electric in Sunswept this morning.

I spoke with Marty before last night's meeting to advise that I have requested FPL provide the City with an education video of the work and what to expect as a resident.

This morning I spoke with FPL again about the lack of communication to the City about this work in progress.

Residents can be assured that any sod replacement or sprinkler damage will be restored by the contractor per my discussions with FPL this morning.

I am awaiting info from FPL on how a resident informs FPL about damages.

Please advise the public with a social media posts to include my communication with you until we get more info from FPL. At that point we can share their info.

I imagine folks will come home from work with a surprise in their driveways.

Lets please get ahead of the issue and put something out this morning.

Thank you.

I ❤️ Pembroke Pines
Best Regards,

Commissioner Jay D. Schwartz
City of Pembroke Pines, Commission District 2
Office: [954.450.1030](tel:954.450.1030)
