Vehicle Replacement Analysis and  
Summary**

**Vehicle #:** 7709  
**Division/Unit:** Fire  
**Year:** 2008  
**Make/Model:** Chevrolet Impala  
**Mileage:** 129,976

<u>FACTOR</u>	<u>VALUE</u>	<u>DESCRIPTION</u>
Age	17	Age of vehicle.
Miles	129,976	Number of miles.
Type of Service	Light-Duty	Type of service that vehicle receives. For instance, a police patrol car would be given "Severe" because it is in severe duty service. In contrast, an administrative sedan would be given "Admin," while light duty trucks will be given "Light-Duty."
Condition	Fair	Takes into consideration body condition, rust, interior condition, history, anticipated repairs, etc. Categories include, New, Very Good, Good, Fair, and Poor.

**SUMMARY\***

**Fleet Manager's  
Recommendation:**

Due to the age of the vehicle and operating conditions, this asset is prone to several failures. One of these failures comes in the form of an engine system failure. At 17 years old this asset needs an engine overhaul, fuel system overhaul, and cooling system repairs. The body of the box and floor is a safety hazard to end user. The parts, labor, and maintenance to keep this asset in circulation is more than that of the depreciated value. To sum up everything that has been stated, this unit qualifies for replacement.
