It comes with a weatherproof cover. The cover is spring loaded to close, preventing water from entering when the shoreline is not connected. A solenoid wired to the vehicle's starter, is energized when the engine is cranked. This instantaneously drives the plug from the receptacle. This simple, reliable device, eliminates forever the broken cables which result when drivers forget to remove the shoreline before driving away.</p>	\$ 1,063.00	40%	DIO
