#### PROJECT DESCRIPTION / BACKGROUND:

Sam Susi, agent, is requesting a parking variance for Tanglewood Plaza located at 9610-9728 Pines Boulevard to facilitate the conversion of an existing takeout-only tenant bay into a full-service restaurant. The variance is also intended to provide flexibility for future leasing, as outlined in the applicant's justification statement. The applicant is specifically requesting to allow 156 existing parking spaces instead of the required 186 parking spaces.

In 1984, the plaza was approved through site plan application SP84-22. In 2012, a non-concurrent parking agreement was approved to accommodate a medical use. Due to the proposed tenant mix, a non-concurrent parking agreement is no longer viable for the site.

# **VARIANCE REQUEST DETAILS:**

The applicant is requesting a parking variance to facilitate the conversion of an existing takeoutonly tenant bay into a full-service restaurant. The variance is also intended to provide flexibility for future leasing, as outlined in the applicant's justification statement. The specific request is to allow the 156 parking spaces provided, instead of the required 186 parking spaces.

To support their request, the applicant has provided the attached justification statement detailing the history of the site, proposed conversion of the existing tenant and the desire to have future flexibility with leasing. Minimum off street parking is regulated by Land Development Code section 155.605. For reference, staff has attached Table 155.605: Minimum Parking Requirements from Article 6 of the Land Development Code.

#### **VARIANCE DETERMINATION:**

The Planning & Zoning Board shall not grant any non-single-family residential variances, permits, or make any decision, finding, and determination unless it first determines that:

Its decision and action taken is in harmony with the general purposes of the zoning ordinances of the city and is not contrary to the public interest, health, or welfare, taking into account the character and use of adjoining buildings and those in the vicinity, the number of persons residing or working in the buildings, and traffic conditions in the vicinity.

In the granting of non-single-family residential variances, the Board shall follow Section 155.301(O) Variance:

- 1. Purpose: To allow for the provision of relief from certain development standards of this LDC for one or more of the following reasons:
  - a) There are special circumstances or conditions applying to the land or building for which the variance is sought, which circumstances are peculiar to the land or building and do not apply generally to land or buildings in the neighborhood, and that the strict application of the provisions of the zoning ordinances would result in an unnecessary hardship and deprive the applicant of the reasonable use of the land or building; or
  - b) Any alleged hardship is not self-created by any person having an interest in the property nor is the result of a mere disregard for or in ignorance of the provisions of the zoning ordinances of the city; or

c) Granting the variance is not incompatible with public policy, will not adversely affect any adjacent property owners, and that the circumstances which cause the special conditions are peculiar to the subject property.

-This page is for Variance, Zoning Appeal, Interpretation and Land Use applications only-SECTION 4 - VARIANCE • ZONING APPEAL • INTERPRETATION ONLY Related Applications: None Code Section: Section 115.605, Minimum Off Street Parking Requirements Required: Request: Permit an ongoing deficit of up to 30 parking spaces. Details of Variance, Zoning Appeal, Interpretation Request: The variance is requested due to changing uses in the community and shopping center industry, whereby general retail is being replaced by medical, restaurant, fitness, entertainment and other uses which require higher parking in accordance with City code than orignally contemplated when the shopping center was first approved and constructed in the mid-1980s. For example, the outparcel located at 9650 Pines Blvd, was originally constructed for a retail use. It is now an urgent care, which requires 5.75 parking spaces per 1,000 sf versus 3.5 parking spaces per 1,000 sf for a retail use. In addition, a business at 9610 Pines Boulevard changed hands. The new owner **SECTION 5 - LAND USE PLAN AMENDMENT APPLICATION ONLY** ☐ City and County Amendment ☐ City Amendment Only Existing City Land Use: Requested City Land Use: Existing County Land Use: Requested County Land Use: \_\_\_\_\_

# **SECTION 6 - DESCRIPTION OF PROJECT** (attach additional pages if necessary)

| wants to change the use from a convenience store (3.5 parking spaces per 1,000 sf)      |
|---|
| to a restaurant (10 parking spaces per 1,000 sf), in line with community preferences.   |
| Finally, when the site plan for the shopping center was approved parking for Kindercare |
| at 9600 Pines Blvd., which has no parking on its own site, required parking be provided |
| by the shopping center, resulting in the available parking for the shopping center to   |
| meet the parking required by code for the shopping center's tenants being reduced by    |
| 14.5 parking spaces, further reducing the available parking for the changing uses in    |
| the shopping center since it was approved and constructed in the mid-1980s.             |
| The combination of these more intense uses caused by changes in community demand        |
| in the City and the loss of 14.5 spaces to Kindercare, means the shopping center does   |
| not meet the code required parking without a variance for the permitted uses the        |
| community needs and demands.  |
| A general variance for a limited shortfall in required parking provides the property    |
| owner and City staff with the opportunity to allow for permitted use changes without    |
| returning for a variance each time a tenant changes hands to a use which is more        |
| parking intensive than the previous use.  |

Planning & Zoning Board City of Pembroke Pines 601 City Center Way Pembroke Pines, FL 33025

Re: Parking Variance Justification Letter

Tanglewood Plaza

9600-9728 Pines Boulevard (Excludes 9700 - Starbucks)

Dear Planning & Zoning Board Members:

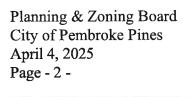

Please accept this letter as justification for the parking variance request from Section 155.251 of the City of Pembroke Pines Code of Ordinances.

#### Relevant Facts:

Tanglewood Plaza at Pembroke Pines ("Tanglewood Plaza") is a strip shopping center built circa 1984-85. Tanglewood Plaza currently provides its community with 21 different businesses in the back strip shopping center portion of Tanglewood Plaza, with a variety of offices, personal services and medical uses, both general and specialized, and restaurant, entertainment and fitness uses, which are all within the permitted uses of Tanglewood Plaza. Tanglewood Plaza also owns one outparcel, presently occupied by MD Now, an urgent care facility (9650 Pines Blvd.). In addition, Tanglewood Plaza, under a shared parking agreement with another outparcel, provides 14.5 required parking spaces to KinderCare daycare (9600 Pines Blvd.), which is owned by a third party.

Tanglewood Plaza has a total of 156 parking spaces on both the back strip shopping center and the one outparcel it owns. On December 13, 2012, Tanglewood Plaza was approved for non-concurrent parking by the Planning & Zoning Board, which allowed for a shortfall from required parking of 16.6 spaces with no shortfall in the required parking after the non-concurrent analysis.

Recently the tenant at 9610 Pines Blvd. within Tanglewood Plaza sold its business to Byrd's Hot Chicken ("Byrd's"). The prior use at that location was that of a convenience store with a deli counter. As the required parking for a convenience store is the same as that of a take-out only restaurant, Byrd's is approved to operate in the space as a take-out only restaurant. However, Byrd's wishes to change its use to that of a

restaurant with eat-in dining. The current take-out only restaurant use requires 3.5 parking spaces per 1,000 sf, while an eat-in restaurant use requires 10 parking spaces per 1,000 sf.

Tanglewood Plaza proposed an update to the currently approved non-concurrent parking approval, which allowed for a shortfall of 16.6 parking spaces from required parking on a non-concurrent parking basis. However, due to the changes in uses since the approval of the non-concurrent parking in 2012, non-concurrent parking is not workable currently because the analysis assumes if a business is open on a particular day or at a particular time that all the required parking must be provided.

Tanglewood Plaza wishes to allow Byrd's to change its use to a restaurant use with eat-in dining, which is a permitted use at Tanglewood Plaza, and to allow for a continuing parking deficit from required parking to provide flexibility for future use changes due to changed market conditions and community needs and demand for shopping centers such as Tanglewood Plaza without a new variance for each such change of use.

Tanglewood Plaza is made up of primarily small "mom and pop" tenants, ranging in size from 900 sf to 1,320 sf, excluding MD Now in the outparcel building and 3-4 larger tenants in the strip shopping center building. The current uses require more parking by code than the uses which were previously common at shopping centers like Tanglewood Plaza (retail uses such as clothing stores, shoe stores and other goods retailers).

Strict adherence to the City's parking ordinance would require that a significant number of additional parking spaces be built at Tanglewood Plaza. This is not possible as there is no land available for such purposes.

In short, a variance is requested due to:

- 1. Changes in permitted business uses in Tanglewood Plaza over time due to changing market conditions and community needs and demand.
- 2. Differences in required parking versus actual parking needs, both due to different hours of operation and different intensities at different times during those hours. Non-concurrent parking was previously approved for Tanglewood Plaza in 2012. Note that the shortfall on the submitted parking analysis of 13.5 spaces is still less than the shortfall of 16.6 spaces approved in 2012 with non-concurrent parking.

- 3. Under the City's code, required parking for the MD Now urgent care is 5.75 parking spaces per 1,000 sf. However, at MD Now, there are rarely more than 6-8 cars parked on-site to visit this tenant, yet required parking is 31.8 spaces. The code is too general in its classifications, especially in the medical category.
- 4. At the time of the original approvals for this property, KinderCare (9600 Pines Blvd.) was allowed to have zero parking on the KinderCare site due to a shared parking agreement with the developer of Tanglewood Plaza. That adds 14.5 required parking spaces to Tanglewood Plaza's required parking for a user that is not a tenant of Tanglewood Plaza, further burdening Tanglewood Plaza's required vs. actual parking. Those additional 14.5 parking spaces, if not required of Tanglewood Plaza, would mean that Tanglewood Plaza would meet all of its required parking without a variance.
- 5. Not granting the variance may result in vacant spaces at Tanglewood Plaza and will put Tanglewood Plaza at a leasing disadvantage to new properties through no fault of its own.
- 6. Not granting the variance may require future additional variances for otherwise permitted uses which are more parking intense than current uses. This is (a) a poor use of City staff's time; and (b) will cause delays in future tenants being able to open for business at significant cost to both the tenant and the owners of Tanglewood Plaza. Mom and pop tenants are not financially, emotionally and psychologically equipped to undertake individual variances. It would be expected that such a requirement would reduce interest by future tenants to locate in the City and at Tanglewood Plaza when compared to other locations outside of the City which would not have similar variance requirements.
- 7. Vacant spaces in the City are an eyesore, do not benefit the community, lower revenues to the City and the property owner and justify a lower the property value of Tanglewood Plaza for real estate tax purposes further impacting the City's revenues.

#### Justification for Approving Variance:

1. Variance is not contrary to public interest health or welfare:

Approving the variance is in harmony with the general purposes of the City of

Pembroke Pines zoning ordinances, and not contrary to public interest, health, or welfare. The purpose of the zoning ordinances is to promote the public health, safety, morals, convenience, and comfort of the community. *See* City of Pembroke Pines, Fla., Code § 155.003.

#### Variance is the minimum variance that will accomplish the intended purpose of the Code:

#### A. Special circumstances:

Special circumstances apply to Tanglewood Plaza such that the variance should be granted: Tanglewood Plaza was built in the mid-1980s and cannot conform to the current parking ordinance without being deprived of reasonable use and profitable business opportunities.

Tanglewood Plaza when built met market and community needs of the time and was in compliance with the then applicable parking ordinances. However, with the passage of time, the market and community needs and demands have changed. To continue to be of advantage to the City's community, the types of businesses Tanglewood Plaza houses have to change and adapt to current community needs and demnds. Byrd's intended change from a take-out restaurant to an eat-in restaurant as well as future tenant changes to more parking intense uses are consistent with the current and future needs of the community. The parking requirement is a hardship as it prohibits Tanglewood Plaza from making reasonable use of its property and from fulfilling a market demand that it can supply.

#### B. No Self-Created Hardship:

The hardship is not self-created by Tanglewood Plaza, as Tanglewood Plaza is currently subject to ordinances that it cannot comply with given its age and the current uses presently of need to and demanded by the community. The present variance request is an exception necessary for the reasonable use of Tanglewood Plaza, and a symptom of market demands and community needs that Tanglewood Plaza can fulfill with this variance, and which would bring a benefit to the community.

# C. Variance Will Not Adversely Affect Other Properties:

The variance will not adversely affect any adjacent property owners, as Tanglewood Plaza will be supplying the parking spaces needed for the operation of all the other businesses in Tanglewood Plaza.

Tanglewood Plaza respectfully requests that a variance be granted to allow Tanglewood Plaza to maintain a maximum shortfall of 30 required parking spaces in order to allow Byrd's to change its use to an eat-in restaurant, to permit for a fluctuation in tenant uses at Tanglewood Plaza in the future and to maintain Tanglewood Plaza's benefit to the community at large without seeking a variance for every future change in a permitted use due to required parking under the City's parking ordinance.

If there is any other information the Board requires for the approval of the variance, please feel free to direct such inquiries to me.

Sincerely,

Samuel Susi President

- [1] Up to 50% of the required parking may be surfaced with grass or lawn.
- [2] This requirement shall apply to outdoor dining that is located within the footprint of the principal building.
- [3] Open lot recreational use parking requirements shall be determined by the Planning and Economic Development Director or Designee and such requirements shall be based on the number of people that can reasonably be expected to be on such premises at one (1) time.
- Other uses not specifically mentioned above shall meet the off-street parking requirements
  of the uses listed above which are similar or compatible as determined by the Planning
  and Economic Development Director or Designee.
- 2. Staff may request a parking study for uses that do not have a similar or compatible use as determined by the Planning and Economic Development Director or Designee.
- 3. Mixed uses. In the case of mixed uses, the total requirements for off-street parking shall be the sum of the requirements of the various uses computed separately, and off-street parking space for one use shall not be considered as providing the required off-street parking for any other use.
- 4. Measurement. For the purpose of this LDC, calculation for parking is measured from the interior walls of the space.
- 5. Measurement for outdoor dining. Applicants proposing outdoor dining shall provide the Planning and Economic Development department an outdoor dining plan in accordance with 155.519. Upon review, dimensions of the area will be determined.
- 6. Combined off-street parking. Nothing in this section shall be construed to prevent collective provision for, or joint use of, off-street parking facilities for two or more buildings, adjacent parcels or uses by two or more owners or operations, excluding outparcels. However, the total of those parking spaces when combined or used together shall not be
