Vice Chairman Golditch advised that these are quasi-judicial matters. If the petitioner and affected parties are here and want to make a presentation, they may. If not, the City will include the staff report and agenda materials as back up and provide staff members for cross examination if the petitioner chooses to do so.

Jennifer Berriel, representing the petitioner, waived her right to a quasi-judicial proceeding.

Ms. Berriel addressed the Planning and Zoning Board. She gave a brief overview of the proposed variance requests.

The following staff report was entered into the record:

PROJECT DESCRIPTION / BACKGROUND:

Jennifer Berriel, agent for the property owner, is requesting a variance for the minimum number of off-street parking spaces and the minimum width of interior parking islands for the site located at 1300 N University Drive. The variances proposed are required to accommodate a proposed restaurant tenant.

The existing building, constructed in the early 1970s, has primarily been occupied by Umberto's Pizza (Closed in 2021) and a florist (Currently a smoke shop) for most of the site's history. The site does not comply with many of today's Land Development Code regulations; however, the site was designated as an existing non-conforming property.

In 2023, a new restaurant was proposed for the former Umberto's space. Before obtaining the necessary building permits (Code Case 231004013), the tenant made modifications to the tenant bay, including expanding the existing dining room. The expansion of the dining room requires that the site meet code requirements including but not limited to minimum parking requirements, ADA, Engineering and Fire Prevention standards.

The applicant worked with the Engineering Division and Fire Department to create a new parking layout that could meet their respective requirements. The proposed parking layout has been reviewed by the zoning division and the subject variances were identified as necessary to bring the site into compliance.

Should the variances be approved, the applicant will be required to attain respective permits as required by the city.

VARIANCE REQUEST DETAILS:

The applicant is requesting the following variances:

- ZV2025-0001: To allow the proposed 23 parking spaces instead of the required 48 parking spaces.
- ZV2025-0006: To allow a minimum interior parking island width of 6.5 feet instead of the required 10 feet.

The applicant has provided the attached justification statement to support their request. Minimum off street parking is regulated by Land Development Code section 155.605, and parking islands are regulated by Land Development Code Section 155.663. For reference, staff has attached Table 155.605: Minimum Parking Requirements and section 155.663 Parking Islands from Article 6 of the Land Development Code.

Vice Chairman Golditch inquired if there was anyone from the public who wished to speak either for or against this item. No one wished to speak.

6. [25-1460](#) **ZV2025-0004, Walmart**, 151 SW 184 Avenue, variance request.
(Cole) (District 4)

Vice Chairman Golditch advised that this is a quasi-judicial matter. If the petitioner and affected parties are here and want to make a presentation, they may. If not, the City will include the staff report and agenda materials as back up and provide staff members for cross examination if the petitioner chooses to do so.

Wesley Hevia, attorney representing the petitioner, waived his right to a quasi-judicial proceeding.

Mr. Hevia addressed the Planning and Zoning Board. He gave a brief overview of the proposed variance request.

The following staff report was entered into the record:

PROJECT DESCRIPTION / BACKGROUND:

Lisa Leonard, agent for Wal-Mart, is requesting a sign variance for the existing Super Wal-Mart site, located at 151 Southwest 184 Avenue. The applicant is requesting a variance to allow directional and informational signs on-site without meeting certain site requirements.

LDC Section 155.699 permits directional and informational signs where there are two or more buildings; a building has a drive-thru; or a building is not visible from the primary frontage.

The applicant requests the ability to add directional/informational signs to their site to direct customers to on-line pickup areas. Upon review of the Wal-Mart request, zoning staff have determined that the site does not meet the criteria to allow such signs.

Walmart was approved in 1997 through site plan SP (97-25). In 2002, the site was approved for 24-hour Super Wal-Mart with associated parking, landscaping, signage and circulation. As a result of the 2002 application, the original Wal-Mart Walmart was demolished once Super Wal-Mart Walmart was completed. Additionally, in 2002, the site was approved for a variance to allow 514.56 square feet of wall signage.

In 2019 through MSC2019-12, in the drive aisle adjacent to the northwest corner of the building, seven short-term parking spaces were approved with a freestanding canopy covering six of the seven short-term parking spaces. In 2024 through ZV2024-0006 33 short-term parking spaces were approved for the site.

VARIANCE REQUEST DETAILS:

The applicant is requesting a variance to allow directional and informational signs where there are fewer than two buildings, the building does not have a drive-thru and the building is visible from the primary frontage.

The applicant has provided the attached justification statement to support their request. Directional and informational signage is regulated by Land Development Code Table 155.699 Permanent Signs. For reference, staff have

attached the table from Article 6 of the Land Development Code.

Should this variance be approved, the applicant must obtain applicable City approvals and/or permits prior to installation of the signs.

Vice Chairman Golditch inquired if there was anyone from the public who wished to speak either for or against this item.

7. [25-1461](#) **ZV2025-0005, Walmart**, 12800 Pines Boulevard, variance request.
(Cole) (District 4)

Vice Chairman Golditch advised that this is a quasi-judicial matter. If the petitioner and affected parties are here and want to make a presentation, they may. If not, the City will include the staff report and agenda materials as back up and provide staff members for cross examination if the petitioner chooses to do so.

Wesley Hevia, attorney representing the petitioner, waived his right to a quasi-judicial proceeding.

Mr. Hevia addressed the Planning and Zoning Board. He gave a brief PowerPoint - overview of the proposed variance request.

The following staff report was entered into the record:

PROJECT DESCRIPTION / BACKGROUND:

Lisa Leonard, agent for Wal-Mart, is requesting a parking variance for Wal-Mart, located at 12800 Pines Boulevard to allow 31 short-term parking

spaces, instead of a maximum of 10 short-term parking spaces as allowed by Code.

The building was approved in 1993 through site plan SP 93-48 as a Home Depot. In 2010, through SP 2010-07 the building was repurposed for the current tenant Walmart.

In 2019, both ZV 2019-06 and MSC 2019-17 were approved to allow 10 short term parking spaces and associated canopy. Additionally, in 2022, site plan application SP2022-0005 was approved to allow an addition to the existing building to accommodate online orders.

On June 18, 2024 (Ordinance 2022) Code section 155.608 was amended resulting in an increase of the permissible number of short-term parking spaces for this site from 3 parking spaces to 10 parking spaces.

On 3/20/2025 the property owner was cited (code case 250300997) for the addition of short-term parking spaces without approval. Should the Planning and Zoning Board approve the variance as proposed the code case will be resolved.

VARIANCE REQUEST DETAILS:

The applicant is requesting a variance to allow 31 short-term parking spaces, instead of the allowed maximum of 10 short-term parking spaces for buildings over 20,000 square feet. Short-term parking spaces are deemed exclusive and must be surplus parking. Currently, 692 parking spaces exist on site. 124 of the spaces are allocated to the adjacent commercial parcel to the east, leaving 568 parking spaces for Walmart. Based on current and proposed uses 532 parking spaces are required. If approved as requested a surplus of 36 parking spaces shall remain.

The applicant has provided the attached site plan which depicts the proposed location of the parking spaces in the parking aisle adjacent to the northeast corner of the building. Also attached is a justification statement to support their request. Short-term parking is regulated by Land Development Code section 155.608. For reference, staff has attached the code section from Article 6 of the Land Development Code.

NON-QUASI-JUDICIAL ITEMS:

8. [25-1462](#) **SP2024-0008, R L Carriers Parking Lot**, generally located on NW 209 and north of Johnson Street, site plan application. (Cole) (District 3)

Sebastian Vittorino, representing the petitioner, addressed the Planning and Zoning Board. He gave a brief overview of the proposed site plan application.

The following staff report was entered into the record:

PROJECT DESCRIPTION / BACKGROUND:

Stan Richards, agent, is requesting approval to construct a parking and storage lot for semi-trailer truck parking with associated lighting and landscape on the existing vacant +/- 2.5 acre lot generally located north of Johnson Street and east of northwest 209 Avenue.

The parking lot proposed is to provide additional parking and storage space for semi-trailer trucks for R L Carriers who operate a shipping facility on the adjacent parcel to west. The lot is for R L Carriers use only and is not open to the public.

Land Development Code Section 155.301(A) requires that site plans within planned zoning districts shall require review and action by the City Commission.

PARKING:

The applicant is proposing a parking and storage lot containing 47, 14'x55' semi-trailer truck spaces. There is no minimum parking or size standards for the proposed use within the Land Development Code.

The proposed parking lot shall be enclosed by a 6' tall chainlink fence.

ACCESS / CIRCULATION:

Access to the site shall be provided at the northwest corner through a chainlink sliding gate.

LANDSCAPING:

The following landscape is being proposed for this site:

- Installation of 60 trees, 4 palms, 606 shrubs, and 1070 groundcovers.
 - o Primary species of trees include: Taxodium distichum - Bald cypress, Conocarpus erectus - Green buttonwood, Acer rubrum - Red maple,

- Quercus virginiana - Southern live oak, and Bursera simaruba - Gumbo limbo.
- o Primary species of palms include: Sabal palmetto - Sabal palm.
 - o Primary species of shrubs include: Chrysobalanus icaco 'Red Tip' - Red-tip cocoplum, Clusia guttifera - Clusia.
 - o Primary species of groundcovers include: Liriope muscari - Lilyturf, Trachelospermum asiaticum - Asiatic jasmine, Phyla nodiflora - Frogfruit, and Zamia pumila - Coontie.
 - Trees remaining on site include: Taxodium distichum - Bald cypress, Ficus benjamina - Weeping fig, and Ficus microcarpa - Indian laurel.

OTHER SITE FEATURES:

The site shall be illuminated by LED fixtures mounted on 6, 30' tall concrete poles.

STAFF RECOMMENDATION:

Staff has reviewed the proposed changes and finds that the proposal meets all code requirements. Staff therefore recommends the application be transmitted to the City Commission with a favorable recommendation.

Vice Chairman Golditch inquired if there was anyone from the public who wished to speak either for or against this item. No one wished to speak.
