

July 2025

To whom it may concern:

The purpose of this letter is to support sole brand justification for the acquisition of goods and/or services.

908 Devices Inc. is the manufacturer and sole service provider, of MX908 Handheld High Pressure Mass Spectrometer (HPMS™), the only available handheld HPMS system, plus Core Clear Charge Station (C3S), MX908 Aero, and MX908 Beacon. Additionally, 908 Devices Inc. is the only authorized point of service, support, and maintenance for these systems, including certified training, warranty, repair, upgrades and technical support.

MX908 is the only available handheld HPMS (high pressure mass spec) on the market for use in public safety. MX908 utilizes patented technology. List of patents available as needed. Made in USA.

Packaged consumables (eg MX swabs & foam tip applicators) for MX908 are sold through 908 Devices Inc.

Please feel free to contact me on any issue regarding this matter at (857) 529-6481 or dmassingham@908devices.com.

Sincerely,

DL Massingham
