

RE-NTSS-23-01 - Hydrowick Drainage system for the Pembroke Lakes Country Club

Project Overview

Project Details	
Reference ID	RE-NTSS-23-01
Project Name	Hydrowick Drainage system for the Pembroke Lakes Country Club
Project Owner	Danny Bedit
Project Type	SS
Department	Recreation & Cultural Arts
Budget	\$0.00 - \$0.00
Project Description	The Hydrowick Drainage system is a lightweight, flexible drainage solution designed to remove excess water inaccessible by conventional pipe systems. Hydrowick's "rope" is constructed of high-quality fiberglass and type 304 stainless steel and allows water to pass through an open steel core draining water two times faster than traditional pipe-based drainage systems. The Hydrowick "ropes" not only drains rain water it pulls excess moisture out of the soil and not allowing muck to form.
