 Proposal #195739.3 SAFEWARE - Milestone Recording Server & Config (x36 channels)

SWT consisting of Safeware and Security 101 shall provide and install a new recording server to manage and record 36 channels of HD Video utilizing Milestone VMS. This servers recording and throughput calculations were based off of customer provided information in regards to the recording schedule and resolutions of cameras being connected and managed by this server.

VMS Licensing and network connectivity to the main application server is the responsibility of the City.

STW will deliver, rack and program the VMS and cameras. A single day of labor is included to accommodate the installation. It is intended that City personnel will program any remaining devices not programmed in the initial day of installation. If additional labor is requested by the City, a change order request will be presented for approval, as needed.
