Cathy,

Per your request Hawkins Inc. would like to offer the following price for Ammonium Sulfate 40% used at your plant. Hawkins new price as of 6-21-23 would move from \$3.25 per gallon to \$4.75 per gallon. This price would be in effect from 6-21-2023 through 6-21-2024. With the current market conditions, we are unable to quote longer without having to assume worst case scenario for the markets. These prices have continued to rise without any support from suppliers and in discussions with all of my supppliers none are willing to hold a price or even submit a cap that price will not go beyond the end of the year. Prior to 2023 we had increases that we absorbed to finish this contract. Hawkins continues to source product from reliable sources and protect our customer base supply.

We look forward to continued service to the city of Pembroke Pines; if you need any additional information, please to do not hesitate to contact us.

Please let us know your decision.

Yours truly,

Raymond Pool SE Regional Manager
