1. Letter of Interest

July 24, 2018

City of Pembroke Pines Purchasing Division 300 South Palm Drive Pembroke Pines, FL 33025

Re: Request For Qualifications #PSEN-18-02 Professional Service Providers (Architectural, Engineering, Surveying & Mapping)

Dear Selection Committee,

Chen Moore and Associates (CMA) is pleased to submit our qualifications for the City of Pembroke Pines Professional Service Providers (Architectural, Engineering, Surveying & Mapping) proposal.

Founded in 1986, CMA is a respected Broward-based Civil Engineering and Landscape Architecture firm with over 30 years of extensive experience. Over the course of our history, we have grown to a staff of roughly 70 employees with five offices in Florida to serve our client's needs. We are an FDOT SBE firm. Our firm holds many continuing services contracts in Broward County and throughout South Florida for many municipalities and with every major utility in South Florida. CMA has the key local project experience that directly correlates with the scope of work for this project. Our current experience as a prime consultant with The City of Pembroke Pines includes the US 27 Watermain Design Criteria Package project. Chen Moore's history with the City of Pembroke Pines goes back 30 years as the City was one of our first clients.

Collectively the CMA Teamforthis RFP has been responsible for dozens of civil engineering and landscape architecture projects. We have designed hundreds of miles of municipal utility infrastructure, neighborhood improvements, roadway improvements including, drainage systems, streetscape, pedestrian pathways and countless landscape enhancements, traffic calming and roundabouts. We have designed private development projects which included lakes and wetlands design and permitting, environmental remediation, site planning and client representation including resolution drafting and public involvement. The CMA team fully understands that the scope of services for this RFP includes a variety of civil engineering and landscape architecture services and is committed to providing our expertise to ensure a successful project.

Services for this project will be based out of our Fort Lauderdale office located at 500 West Cypress Creek Road, Suite 630, Fort Lauderdale, FL 33309 with support from our Miami office staff and our West Palm Beach office staff. Leading our team is **Peter Moore**, **P.E.**, **F. ASCE**, **ENV SP**, **LEED AP** as principal-in-charge. Mr. Moore will combine his experience, engineering expertise and key relationships to bring maximum value to the City of Pembroke Pines **Daniel Davila**, **P.E.** Mr. Davila was selected for this contract for his extensive design experience in the public and private sector which include hundreds of miles of utility infrastructure projects, pump stations, potable water storage tanks, canal bank restoration projects and stormwater design, and **Safiya Brea**, **P.E.**, **LEED AP** for QA/QC services. Mrs. Brea has been the Project Manager for some of the largest utility and neighborhood improvement projects in Broward County and has over 16 years of experience with public sector clients. A team of qualified subconsultants will assist these professionals. They include the following: via planning for traffic engineering and studies, GFA International for geological engineering, environmental and hydrologic studies and CECOS Environmental Consulting for environmental and wetland mitigation services.

In the pages that follow, please find our qualifications for this contract including our recent, current and projected workload of the firm as requested. We are looking forward to the opportunity to present our qualifications and approach to this project in more detail to the selection committee. Should you have any questions, please do not hesitate to contact me at (954) 730-0707, extension 1002, pmoore@chenmoore.com or via mail at 500 West Cypress Creek Road, Suite 630, Fort Lauderdale, Florida 33309.

Respectfully submitted,

CHEN MOORE AND ASSOCIATES

Peter Moore, P.E., F.ASCE, ENV SP, LEED AP, President and CEO

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Chen Moore and Associates (CMA) was the prime consultant for the 30" Emergency Force Main Rehabilitation project in the City of Fort Lauderdale. This innovative design-build project, led by Murphy Pipeline Contractors (MPC) was undertaken to provide both mainline force main replacement for aging infrastructure and to provide additional redundancy in case of future issues. The contract was divided into four (4) phases within the City of Fort Lauderdale. The nearly 20,000 linear feet of pipeline is being rehabilitated through a combination of swagelining, directional drilling, and traditional open cut installation over these four phases. CMA provided planning, design, permitting and engineering services during construction. Environmental compliance, subaqueous crossing, public involvement and maintenance of traffic in the busy Sistrunk and Himmarshee Business Districts were some of the additional project complexities. CMA also provided dewatering permitting and groundwater modeling due to contaminated sites within quarter mile of the projects. Fee: 887,295; Cost: \$14 million

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Chen Moore and Associates provided utility coordination; roadway and stormwater design; government permitting; and bidding assistance for the development of the design of streetscape and stormwater improvements to the downtown core and adjacent areas east of Bougainvilla Drive in the Town of Lauderdale by the Sea.

The goals of this project were to create an urban gathering place that provides beautiful vistas of the sea, provides increased shade from the intense sun and heat, enhances the pedestrian environment and safety while maintaining vehicular access to the businesses located on the street and improving vehicular circulation and parking, provides for expansion of outdoor dining areas, and pays tribute to the Town's history.

Chen Moore and Associates used GIS to assist with utility coordination and base map preparation; assisting with the design concepts and cost estimates; recommending alternatives for paving design for the roadway and pedestrian traffic areas; prepared initial roadway alignment plan; prepared initial drainage and utility relocation plans; completed a stormwater design model; submitted for government permits; and provided bidding assistance for this project. Fee: \$74,000; Cost: \$1,870,000

CMA is providing engineering design services for the under Stormwater Improvement Master Plan Modeling and Design Implementation Project under the for the City of Fort Lauderdale. CMA is responsible for the planning, modeling, design, and permitting for the proposed stormwater improvements within the Victoria Park neighborhood, which was identified as one of the 7 priority neighborhoods with the City. A combination of multiple improvements to the stormwater management system have been developed to alleviate the existing flooding issues within the Victoria Park neighborhood. The proposed stormwater improvements within the Victoria Park neighborhood include separate alternatives for the eastern and western portions of the neighborhood. Within the western portions of the Victoria Park neighborhood, the proposed stormwater improvements consist of installing additional pipe interconnectivity of various existing independent drainage networks located throughout the neighborhood, installing new exfiltration trench, and completing limited roadway swale restoration where feasible. Within the easter portions of the Victoria Park neighborhood, the proposed improvements consist of interconnecting 6 independent positive outfalls into the Middle River, installing new backflow prevention, and adding a new stormwater pump station. The proposed stormwater improvements within the Victoria Park neighborhood are estimated to be approximately \$13 million in construction costs. Fee: \$812,799

City of Wilton Manors	David Archacki	(954) 390-2190

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The City of Wilton Manors retained Chen Moore and Associates to design a roadway improvement along a portion of North Dixie Highway within the City limits. The project was partially funded by FDOT through their Local Agency Program (LAP). The project limits included the public right of way of North Dixie Highway from the bridge at the City limits on the south to the Five Points intersection with Wilton

Drive/NE26 Street on the north. This section of North Dixie Highway includes approximately 2,200 linear feet of roadway within public right of way which varies between 50 feet and 60 feet wide. The intention of the project was to implement the following elements along North Dixie Highway within the project limits:

- Install new bicycle lanes along the corridor on both sides of roadway
- Install new curbing and gutter to accommodate new roadway section
- Install new pedestrian sidewalks to accommodate new roadway section
- Install pedestrian level lighting along new sidewalk as allowed by adjacent private property
- Install limited landscaping in available right of way areas along corridor
- Modify existing drainage facilities to accommodate new roadway section

In order to implement new bicycle lanes along Dixie Highway, the roadway cross section was modified along the majority of the project limits. The modified roadway cross section was wider than the existing roadway cross section, which required the removal of some existing curbing and sidewalks along with the relocation of some existing drainage facilities. The configuration of the driveway access to private properties, especially within the north portion of the project, limited the implementation of all project elements in these areas due to pull in parking. Fee: \$128,390

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Chen Moore and Associates was contracted by the City of Coral Springs to assist the Coral Springs CRA in the planning, design, permitting and construction support of various streetscaping improvements in Downtown Coral Springs. As the prime consultants, CMA provided civil engineering, landscape architecture, environmental permitting and construction engineering and inspection services for the project.

The project included implementing Complete Street concepts for NW 31st Court, NW 94th Avenue and NW 32nd Street. Additionally, CMA implemented the culverting of the canal along NW 31st court to provide space for a linear park, currently called the "Art Walk",

which is an important pedestrian connection between the downtown pathways project and The Walk development. Finally, the project includes the implementation of turn lanes along Sample Road, median improvements in Sample Road and minor improvements to adjacent alleyways and pedestrian pathways.

Overall, the project improves the walkable nature of Downtown Coral Springs, while tying together various aesthetic elements in advance of the City Hall project sited adjacent to them projects. Fee: \$235,739.98; Cost: \$4.1 million

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Chen Moore and Associates provided design, permitting and construction engineering inspection services for the conversion of an existing football field and multi-purpose field into one Babe Ruth Baseball field, one Little League Baseball field, and one practice baseball field for the City of Deerfield Beach Parks and Recreation Department. The project is located in Westside Park, which is a 15 acre park located south of Hillsboro Boulevard, offering two lighted basketball courts, a football field with concession stand, two lighted tennis courts, a full service recreation center, full size gym, picnic areas and a newly renovated playground. CMA was responsible for providing survey, geotechnical, site planning, civil engineering, landscape architecture, MEP and structural engineering services. The scope of the project included the layout of the baseball fields with supporting services such as lighting, dugouts, scoreboards and irrigation. The project also included general improvements to the park around the baseball fields including better

pedestrian access, ADA parking and sidewalk improvements, native landscaping, outdoor seating areas and stormwater improvements. The project is located in an underserved community of Deerfield Beach and provides access to improved parks and recreation services for the community. The project was funded through a Community Development Block Grant. Fee: \$181,565; Cost: \$1.6 million

City of Fort Lauderdale	Louis LaFaurie	(954) 828-6538

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Chen Moore and Associates developed a streetscape master plan for Dixie Highway in the Middle River Terrace Neighborhood of Fort Lauderdale, Florida. CMA was contracted by the City to work with the local homeowners association who received a grant to fund the development of a complete streets master plan. The neighborhood was developed prior to many current planning and zoning standards being implemented in the City, as a result, the community has concerns about unsafe conditions for pedestrians and bicyclists due to unregulated land development patterns. CMA is developing the master plan to include pedestrian and bike trails, to narrow the width of the travel ways, and to add hardscape and landscape beautification, including the development of gateway features into the neighborhood. In order to facilitate the master plan, CMA analyzed the area with regard to current zoning and right of way conditions and conducting field studies at different times of the day to understand on the ground conditions that are affecting resident safety. The Project requires coordination with the City of Fort Lauderdale and District 4 of the Florida Department of Transportation. Fee: \$17,550; Cost: \$3.3 million

Transportation-Turnpike

Chen Moore and Associates is providing professional landscape architecture services for this off-system project for FDOT D4 as a subconsultant to DRMP. The project lies wholly within the city limits of Coral Springs. The scope of the project includes the conversion of an existing 4 lane road section to 6 lanes. This section of University Drive has a significant amount of existing tree canopy and is lined with multiple businesses and residential neighborhoods that will be impacted by the widening. The design goals are to limit the impact to the existing tree canopy, incorporate a proposed linear park and meandering shared use paths into the design, and develop a cohesive landscape theme for the corridor. The project requires close coordination with FDOT D4, Broward County, and the City of Coral Springs. The services being provided by CMA include community input, tree inventory and disposition plans, tree mitigation permitting, landscape, hardscape, and irrigation design. Fee: \$79,098.70

Chen Moore and Associates (CMA) is a multi-discipline consulting firm with offices in Fort Lauderdale, Miami, West Palm Beach, Orlando and North Central Florida.

Founded in 1986, Chen Moore and Associates specializes in civil engineering, water resources, water and sewer, transportation, landscape architecture, planning and irrigation, environmental and construction engineering inspection. The firm commits to providing responsive quality services while meeting the schedules and specific project needs of our clients.

CMA actively supports various community organizations including Habitat for Humanity, Toys for Tots, the Cooperative Feeding Program, and Ocean Watch, a non-profit group focused on cleaning and preserving South Florida's Beaches. Firm staff participates in local professional society events including the American Society of Civil Engineers, Florida Engineering Society, American Society of Landscape Architects, Irrigation Association, Florida Recreation and Park Association, International Society of Arboriculture and the United States Green Building Council. We proudly support our industry and the communities in which we live, play and work.

a. PROJECT OWNER	b. POINT OF CONTACT NAME	c. POINT OF CONTACT TELEPHONE NUMBER
Florida Department of Transportation D4	Mr. Chon Wong	954-777-4659

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

via planning, inc (via) staff has been providing technical planning support to FDOT District 4 staff under this districtwide contract for over a decade. Some of the relevant tasks are highlighted below:

Data Collection: As an travel demand model user, via staff assisted FDOT staff on the social and economic data collection; including transit on-board survey, travel time run, origin-destination surveys, HOV monitoring surveys, and those completed as part of the PalmTran Transit Development Plans (TDP) development.

Transportation Systems Planning: Many of the tasks completed under this contract are classified as Systems Planning tasks. They include: coordination with the counties and cities within District 4 to improve the regional mobility whether through the LRTP development process or FDOT's Work Program scope refinement; coordination with the MPO on mobility performance measures reporting, in compliance with MAP-21 regulations; review of LAP applications; review of bike/ped planning studies, especially for safety improvement and/or as a part of the Complete Streets initiative; development of the 2011 major update for PalmTran's TDP; review of the Palm Beach and Broward Counties Interchange Masterplan; review of numerous interchange access proposals through successful coordination with FHWA and FDOT Central Office.

Lane Elimination Review and Coordination: via staff has provided assistance to FDOT District 4 staff since the inception of the program; starting with the formulation and refinement of the process, review and tracking of all applications through the District, assistance with the applicant, development of lane elimination schedule template, and currently assistance with the evaluation process to assess the feasibility of multiple applications.

Special Project Planning: As growth management regulation changes overtime, via staff continuously provides development review assistance on behalf of the local agencies, for developments of regional impact (DRI), concurrency study, congestion management study, and land use planning study.

Total Project Cost: \$1,500,000

OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.) 19. RELEVANT PROJECTS (1) TITLE AND LOCATION (City and State) (2) YEAR COMPLETED Pembroke Pines City Hall & Civic Center, Pembroke Pines, FL PROFESSIONAL SERVICES CONSTRUCTION (If Applicable) 2014 - 2017 (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE ☑ Check if project performed with current firm Professional Geologist / Project Manager Geotechnical Engineering Construction Materials Testing This project consisted of the new construction of three building components: a 172,225-square foot civic center consisting of 4-story offices surrounding a great hall with mezzanine level; a 1-story, 175-seat commission chambers consisting of approximately 5,659 square feet; and an 11,176-square foot, 1 story with mezzanine art gallery. GFA performed a Geotechnical Exploration consisting of seven standard penetration test borings to depths ranging from 25 to 45 feet below grade. In addition, GFA provided geotechnical field technicians to perform vibration monitoring. GFA also providing engineering field technicians and a certified laboratory to perform construction materials testing services for all soil, aggregate, and concrete material used for the project. (1) TITLE AND LOCATION (City and State) (2) YEAR COMPLETED Franklin Academy, Pembroke Pines, FL PROFESSIONAL SERVICES CONSTRUCTION (If Applicable) 2013 - 2016 (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE ☑ Check if project performed with current firm Professional Geologist / Project Manager Geotechnical Engineering Construction Materials Testing b. Threshold Inspections This project consisted of the new construction of a 120,000-square foot school and a residential community with 43 single family lots. GFA performed a Geotechnical Exploration consisting of fourteen standard penetration test borings to depths of 15 feet below existing grade, nine standard penetration test borings to depths of 20 feet below existing grade, four standard penetration tests to depths of 30 feet below existing grade, and sixteen exfiltration tests to depths of 10 feet below existing grade. GFA provided engineering field technicians and a certified laboratory to complete Construction Materials Testing services for all soil, aggregate, and concrete material used for the project. GFA provided licensed inspectors to perform Threshold Inspections for reinforcing steel placements, shoring and re-shoring inspection verification, pre and post fill cell grouting, concrete and grout placement monitoring, and structural steel. (1) TITLE AND LOCATION (City and State) (2) YEAR COMPLETED City of Hollywood Salinity Monitoring Wells, Hollywood, FL CONSTRUCTION (If PROFESSIONAL SERVICES Applicable) (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Check if project performed with current firm Professional Geologist / Project Manager Geotechnical Engineering This project included the installation of four deep salinity monitoring wells to depths of 220'. The 2-inch wells are used for monitoring of salt water intrusion along the coast of Florida and aid the USGS and City Managers in managing the delicate water resources for the City of Hollywood. In order to meet the time lines and provide near continuous soil sample for the project, GFA utilized a Geoprobe 8150LS Rotary Sonic Drill Rig. GFA International Services consisted of: Rotary sonic sampling using the 4 x 6 sampling system; Construction of 2' diameter monitoring wells to 220'; Professional Geological report and monitoring; Water conductivity logging of the completed borehole; CCTV camera of completed wells. Challenges encountered Project specifications required discriminate interval water sampling of the boring to determine the conductivity and water quality to design screen interval of the well. To accomplish this GFA used an inflatable packer system designed specifically for the sonic tooling to seal off the water column and pull water samples from specific depth intervals as required by the project geologist.

	2017	

23. PROJECT OWNER'S INFORMATION

a. PROJECT OWNER	b. POINT OF CONTACT NAME	c. POINT OF CONTACT TELEPHONE NUMBER
City of Hollywood	Mr. Clece Aurelus, P.E.	(954) 805-3681

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

This project included the installation of four deep salinity monitoring wells to depths of 220'. The 2-inch wells are used for monitoring of salt water intrusion along the coast of Florida and aid the USGS and City Managers in managing the delicate water resources for the City of Hollywood.

GFA Contract

\$198,326,00

GFA Services

In order to meet the time lines and provide near continuous soil sample for the project, GFA utilized a Geoprobe 8150LS Rotary Sonic Drill Rig. GFA International Services consisted of:

- Rotary sonic sampling using the 4 x 6 sampling system
- Construction of 2' diameter monitoring wells to 220'
- · Professional Geological report and monitoring
- · Water conductivity logging of the completed bore hole
- CCTV camera of completed wells

Challenges encountered Project specifications required discriminate interval water sampling of the boring to determine the conductivity and water quality to design screen interval of the well. To accomplish this GFA used an inflatable packer system designed specifically for the sonic tooling to seal off the water column and pull water samples from specific depth intervals as required by the project geologist.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The objective of this project was to collect site and subsurface data and summarize test results in the form of a Geotechnical Engineering report listing pavement structural values at each location.

GFA Contract

• \$43,885.00

GFA Services

GFA performed a total of 81 asphalt cores for sampling of materials and asphalt thickness and 27 standard penetration test borings to depths of 15-feet below existing grade. GFA visually classified and stratified the soil and rock samples recovered. GFA sampled base rock and subgrade material for Limerock Bearing Ratio (LBR) testing, as well as carbonate content testing.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

This project consisted of the new construction of eighty, two and three-story, multi-family units located in Oakland Park, Florida on a five-acre parcel. The project was part of a cooperative venture between Pinnacle and the Broward County Housing Authority's non-profit affiliate, Building Better Communities.

GFA Contract

• \$112,997.50

GFA Services

GFA performed an Environmental Phase 1 Site Assessment with an Environmental Lien Search. This included records review, site reconnaissance, interviews, and preparation of a Phase 1 ESA Report. GFA performed an Environmental Phase 2 Site Assessment that included installing nine soil borings using a GeoProbe drill rig via direct push technology to assess for potential impacts of the use of unsuitable fill material. A total of twenty-seven soil samples

were collected for laboratory analysis of low-level Polynuclear Aromatic Hydrocarbons. Due to elevated levels of benzoapyrene detected in soil samples, GFA prepared and implemented a Soil Management Plan. During the implementation of the Soil Management Plan, GFA documented site activities and collected soil samples for laboratory analysis. In addition, GFA collected seventy-two, five-point composite soil samples from five large stockpiles for laboratory analysis for organochloride herbicides, arsenic, and polynuclear aromatic hydrocarbons. GFA prepared a Site Assessment Report using the laboratory data from assessments. GFA also installed three FDEP-approved shallow groundwater monitoring wells, one FDEP-approved intermediate double-cased groundwater monitoring well and collected groundwater samples for laboratory analysis. GFA retained a licensed land surveyor to survey in the top of casing elevations and GPS coordinates for the newly installed FDEP-approved monitoring wells. GFA is providing quarterly monitoring for Natural Attenuation Monitoring and Reporting. Upon completion of construction activities, GFA will submit a SMP Implementation Report-Request for No Further Action to Broward County Pollution Prevention Remediation and Air Quality Division. GFA also installed 4 FDEP-approved permanent groundwater monitoring wells. In May of 2017, GFA collected a total of sixteen soil samples with a GeoProbe drill rig via direct-push technology for further laboratory analysis and performed proper well abandoments for eight of the monitoring wells. GFA prepared an Engineering and Institutional Control Plan and No Further Action with Conditions report. GFA provided Contour Map Development services. In addition, GFA also performed a Geotechnical Exploration consisting of thirteen standard penetration test borings to depths of 25-feet below existing grade and four exfiltration tests to depths of 10-feet below existing grade.

APPROACH AND METHODOLOGY

Understanding Of Scope Of Work

GFA foresees no problem meeting the City of Pembroke Pines' schedule or demands. Team GFA is prepared to provide qualified personnel to conduct the following Geotechnical scope of work:

Geotechnical Services

- 1. Perform soil exploration and sampling
- 2. Perform field and onsite soil and material testing
- 3. Prepare geotechnical reports

GFA will furnish all necessary materials, labor, professional geotechnical expertise, supervision, equipment, and transportation necessary to execute and complete all work required by County specifications. GFA will provide the professional geotechnical, geophysical and hydrogeological expertise necessary in field services, laboratory services, analysis and design, estimating time and costs, planning, scheduling, checking, certification of completed work and submittal/filing/recording of the required data to the County. We have a full-time staff of employees ready to move forward immediately with all requirements of this contract.

GFA will provide engineering testing services from our own testing laboratories validated by the U.S. Army Corps of Engineers (USACE) or the Florida Department of Transportation (FDOT), and accredited through the Construction Material Engineering Council (CMEC).

GEOTECHNICAL ENGINEERING SERVICES

Understanding: The purposes of a Geotechnical Investigation are to investigate the soil and geologic conditions of a property and to provide recommendations and design criteria for construction. The scope of a Geotechnical Investigation includes review of available literature; conducting on-site exploration, mapping/logging and sampling; and laboratory testing of samples obtained in the field. GFA will interact with the **City of Pembroke Pines** staff to complete each project.

Project Approach: Geotechnical services typically involve five critical steps. First, preliminary field work must be done. A geotechnical engineer collaborates

with a client representative to determine project objectives. The engineers will determine appropriate locations and depths for taking soil samples. Boring locations will include areas where structures, pump stations, levees, culverts and water control structures require geotechnical data.

In addition, engineers will develop preliminary concepts for drainage structures and pavements that may be needed to direct water away from buildings. A thorough proposal will be developed detailing a scope of services, fees and report submittal milestones.

The second step, exploration, begins with drilling and recovering soil and rock samples using such techniques as standard penetration testing, rock coring, cone penetrometer soundings and/or vibracore sampling. Our drillers are versed in all these type of drilling techniques.

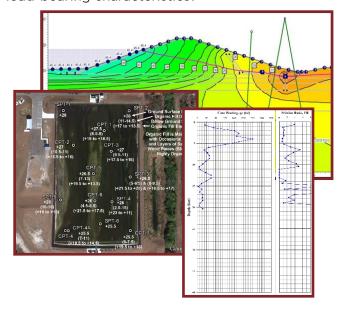

A geotechnical engineer will take a series of soil samples from each of the defined boring locations, paying special attention to recovered materials and penetrating resistance. If adjustments need to be made to the field sampling plan then the field engineer will make appropriate arrangements with the field crews after discussing this with the client.

Laboratory tests and sample review is the third stage (materials testing). All soil samples obtained by GFA in field investigations are thoroughly examined visually in our laboratory in accordance with ASTM D-2488 to obtain an accurate definition of the geomorphic conditions and properties of the soil. Engineers evaluate soil samples for strength, moisture, density and other characteristics and properties. Random laboratory tests are performed on soils within the foundation bearing depths to verify visual classifications. These tests may consist of gradation analysis and organic content testing on soil samples.

The GFA team then develops final detailed boring logs which depict the soils encountered. These

boring logs illustrate the soils encountered in graphic detail and penetration resistance values logged during drilling and sampling activities.

A geotechnical report, is the fourth step in the process. It provides a detailed analysis of subsurface conditions at the study location. How will existing subsurface soil and bedrock such as limestone or sandstone perform as bearing materials for the planned construction? What about soils that have been manipulated previously? What type of fill was used? Was it uncontrolled fill that has been dumped, but not compacted, or structural fill that has been compacted? Does the fill include buried debris? How can the contractor modify this material to ensure the load-bearing characteristics?

Our team will then make the appropriate evaluations in order to make recommendations with respect to foundation support of structures and slabs; soil bearing pressures; bearing elevations; and foundation design recommendations. As part of the analysis, and only if necessary, GFA will advise our client as to the need for improvements to the soils on the site.

The report's recommendations will guide the construction process. Recommendations cover issues in site preparation and drainage, as well as in footing, slab, seawall, bulkhead and pier design. The written report documents the alternatives proposed with supporting data and confirms the implementation plan accepted by management. Specific organization of the report is unique to each study.

Last, but equally important, geotechnical services include monitoring and consulting during site preparation and construction. Geotechnical and materials engineers and engineering geologists understand how the soil beneath a structure must perform, and they have the training, equipment and knowledge of soil and material characteristics to make engineering judgments about potential soil and materials problems.

Specialized Skills: GFA will apply a number of specialized skills to the investigation that will save time and cost. If appropriate, we will employ state of the art field devices, such as piezocones and flat plate dilatrometers, that produce more accurate soils data than with routine methods, allowing for much less conservative and less costly design. GFA has the best equipped geotechnical laboratories in the State of Florida allowing us to conduct any test in house, thus saving time and money.

testing of plastic pipes. Also, we have a fully equipped and certified laboratory for testing geosynthetic materials and synthetic (plastic) liners. GFA has the best equipped geotechnical laboratories in the state of Florida with devices capable of providing virtually any soils test.

Cost Saving Approach

GFA International is well aware that construction projects face many challenges: budget constraints, safety issues, environmental impact, etc. By applying value methodology (also called value engineering, value analysis or value management) to construction projects, GFA International is able to save its clients significant amounts of money and time. These concepts benefit GFA clients and taxpayers by:

- Reducing project costs
- Reducing paperwork
- Simplifying procedures
- Improving project schedules
- Reducing waste
- Increasing efficiency
- Using resources more effectively
- Developing innovative solutions

Value Methodology Applicability

GFA applies Value Methodology wherever cost and/or performance improvement is desired. That improvement can be measured in terms of monetary aspects and/or other critical factors such as productivity, quality, time, energy, environmental impact and durability. It can beneficially be applied to virtually all areas of construction. With respect to this submittal, Value Methodology is applicable to professional engineering services primarily in the Geotechnical arena.

Cost Control

It is GFA's obligation to be cost conscious in our attempts to ensure that our client's needs are met. We are responsive to the needs of our clients without compromising the integrity of the work and have developed an effective policy in partnering with our clients throughout the term of our contracts.

Once awarded a project, GFA's principal management team will meet with County representatives to identify cost estimates for the full scope of a project. Recommendations will be made at this point to manage costs before the actual work has begun, and once cost issues have been resolved, only then does GFA commence work.

It is our mission to communicate with our client before and during the work to come to mutually agreeable terms. We intend to provide the city with a level of comfort knowing that GFA International views cost management as a critical concern.

GFA maintains full management control over the scheduling and quality of our work. Should a problem arise with which the County is not comfortable, we would urge your representative to contact our Senior Management and or Principals in our firm for immediate resolution. Since the company's inception, we have made a commitment to an "open door" policy with all of our clients and employees and have found this to be profitable and agreeable to both.

SONIC DRILLING SERVICES

ROTARY SONIC RIG

This full-size sonic rig delivers big sonic power to our customers. The 8150LS sonic rig advances 10-ft. tooling and has a 13-ft. 1-in. head travel and can continuously sample and set casing in excess of 300 ft. (90 m) in a wide Full-Size Rotary Sonic Rig with 50K Dynamic Force

- Sample Quality Near 100% Speed 2-3 times faster over recovery on every sample interval
 - conventional systems
- Safer Automatic Rod Loader, Pipe Indexing Racks, and Break-Out Wrench reduces risk of injury

Flexibility - Sonic methods advance a temporary casing allowing additional tools to be utilized such as:

- SPT Sampler for Geotechnical Needs
- Wire Line Coring of Hard Rock Formations
- Interval Water Sampling with DP60 Water Sampler

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

This FDOT Project is currently constructing an expansion of I-75 from north of Griffin Road to I-595 (referred to as Segment E) to include express lanes within the existing median. The proposed improvements also include drainage improvements and noise barriers. CECOS provided environmental permitting and list species surveys for the Design-Build Team.

CECOS was a subconsultant to WSP and was responsible for modifying the U.S. Army Corps of Engineers (USACE) permit due to design changes including the construction of a noise barrier and drainage improvements within jurisdictional wetlands and filling a pond. The permit was originally obtained for the entire corridor from Miami Gardens Drive in Miami-Dade County to I-595 in Broward County. We evaluated on-site replacement wetlands, which resulted in zero net impacts to wetlands and required no additional mitigation. The results were presented to the USACE during an interagency meeting on behalf of the FDOT. A permit modification was required for the proposed placement of muck fill into jurisdictional ponds/borrow pits which had substantial vegetated littoral zones. We prepared the permit modification application with the required supporting documentation, which was approved within one month. A second modification was required due to additional changes during construction including impact to over one acre of wetlands. CECOS also permitted this effort which included development of a wetland restoration plan. The plan included restoring 1.22 acres of land impacted by fill activities. This was accomplished by excavating the area to adjacent elevations. This site was monitored for one year and following the final monitoring report, the USACE concurred that the restored site conditions do not require any further action or monitoring.

CECOS also conducted a pre-construction survey within the project corridor to determine if burrowing owls and other listed species had colonized the corridor since the completion of the PD&E study.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The City of Deerfield Beach, under the Local Agency Program (LAP) agreement with the Florida Department of Transportation (FDOT), conducted a Project Development and Environment (PD&E) Study to evaluate alternatives for mobility and safety improvements to SR A1A. The project limits are from SE 3rd Street to NE 7th Street, a distance of approximately 0.84 mile. Three alternatives were evaluated for possible improvements and included modifying traffic circulation. Public involvement was a critical component to address potential impacts to businesses, including a reduction of parking.

CECOS was the lead environmental consultant on the project and was responsible for preparing the NEPA document (Categorical Exclusion Type 2). CECOS also prepared the supporting reports: Noise Study Report (NSR), Endangered Species Biological Assessment Report (ESBAR), and Contamination Screening Evaluation Report (CSER). Over 400 noise sensitive sites were identified and evaluated including condominiums, apartments and hotels. We completed a noise analysis and identified impacts to all sensitive sites and defined reasonable and feasible abatement measures. Sea turtle nesting occurs adjacent to the project area so CECOS conducted a night time lighting study to determine potential impact to nesting sea turtles. The project was able to retrofit "turtle-friendly lighting" for new and replaced lights.

CECOS also evaluated the Deerfield Beach Fishing Pier and several

beach access points as potential Section 4(f) resources.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

- Experienced in impact evaluations of complex sites and the preparation of NEPA, Section 4(f) documents and detailed environmental reports and agency coordination.
- Experienced in environmental evaluation of large, complex projects, including protected species surveys, Section 7
 Consultation and Endangered Species Biological Assessments.
- Experienced in wetland mapping, delineation, and evaluation, including the development of mitigation plans

Description of Work: This 25 mile road improvement and transit feasibility project extended from just east of SR 76 to Blue Heron Boulevard. The project traversed extensive environmentally sensitive areas including eight public/conservation lands, significant wetlands and habitat for listed species.

CECOS was the environmental lead for the project; and was responsible for conducting wetland and threatened and endangered species studies, GIS mapping of wetland and upland habitats, identification of Section 4(f) resources, contamination assessment, and preparation of NEPA and support environmental documents. CECOS conducted a corridor analysis of environmental issues for five different project corridors and evaluated the environmental issues associated with various transit alternatives along the corridor, including rail and bus. Specific responsibilities included conducting wetland/habitat mapping of over 930 acres, threatened & endangered species surveys, socio-economic impact analysis, contamination screening evaluation study and the development and implementation of an environmental public involvement plan, development of UMAMs and a conceptual mitigation plan.

Field survey methodologies for listed species were developed and approved by USFWS and FFWCC. Protected species and bird nesting surveys were conducted for eastern indigo snake, Everglade snail kite, sandhill crane, wood stork state-listed wading birds, red-cockaded woodpecker and Audubon's crested caracara. A Wildlife Crossing Study was conducted to identify potential location(s) for a crossing under the roadway. Additional responsibilities included identification and evaluation of secondary and cumulative impacts and development of mitigation plans. We assisted with the public involvement effort that was required due to the significant environmental issues and controversy associated with the project.

A Section 4(f) Determination of Applicability was prepared for nine resources along the corridor. The preferred alternative was developed to avoid the direct use and constructive use of these properties. CECOS also evaluated a shared use path outside the right of way, which would have impacted Section 4(f) properties as well as wetlands and listed species habitats. Ultimately, the path was eliminated because of these potential impacts.

CECOS prepared the Finding of No Significant Impact and Draft and Final Environmental Assessments along with the environmental support documentation, including a Wetland Evaluation Report, an Endangered Species Biological Assessment Report, and a Contamination Screening Assessment Report. Additional responsibilities included the evaluation of secondary and cumulative impacts and the development of a compensatory mitigation plan. The FONSI has received final FHWA signatures.

Wildlife Study

23. PROJECT OWNER'S INFORMATION

a. PROJECT OWNER	b. POINT OF CONTACT NAME	c. POINT OF CONTACT TELEPHONE NUMBER
Florida Atlantic University (FAU)	Dale Gawlick, Ph.D.	(561) 297-3333

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Description of Work: Wood stork nesting colonies are located throughout southern Florida and adult storks often feed (themselves and their nestlings) along road sides or stormwater ponds, suggesting roadway corridors can provide feeding habitat. Alternatively, their presence suggests there are at least some wood storks that do not require optimal foraging conditions. Some roadways seem to have more wood storks than others, which could indicate the surrounding landscape affects corridor use.

These questions are important to the Florida Department of Transportation (FDOT) because under Section 404 of the Clean Water Act, the FDOT is required to evaluate and mitigate for wetland habitat impacts due to roadway improvements. These improvements often affect natural wetlands or existing drainage features within the right of way or in adjacent lands that need to be acquired. In addition, additional wood stork foraging habitat mitigation is often required under Section 7 of the Endangered Species Act. Thus, an accurate estimate of prey items produced in roadway corridors and surrounding wetlands is critical when mitigation requires that "...habitat compensation replaces the foraging value matching the hydroperiod [length of time a wetland remains inundated] of the wetlands affected and provides foraging value similar to, or higher than, that of impacted wetlands" as specified in guidelines of section 404 of the Clean Water Act.

CECOS assisted Florida Atlantic University (FAU) in a study over two water-years to investigate the characteristics of roadway features that affect their use by wood storks and to quantify the community structure of wood stork prey produced. This information is needed so that the use of roadway features can be related to the production of wood stork prey items, either to enhance these features (create suitable foraging habitat) or to discourage their use (roadways near nesting colonies). Ultimately, a refinement of the fish biomass estimate in corridors with particular features and surrounding landscapes may be appropriate and these estimates could produce a different estimate of habitat impact and mitigation requirements. This could decrease project costs substantially.

CECOS developed maps and provided data layers of habitat and roadside corridor features. These maps were ground-truthed. CECOS then characterized the morphology and related plant community structure of prey sampling sites. Finally, CECOS' staff scientists assisted FAU in the refinement of the Suitable Wood Stork Biomass calculations used by the U.S. Fish and Wildlife Service for FDOT projects.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

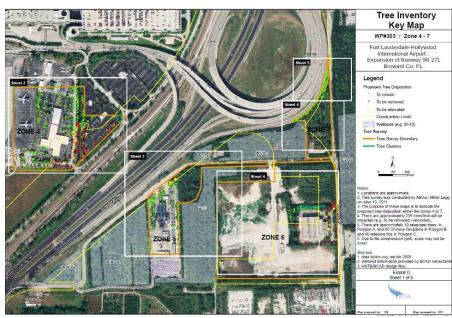

Description of Work: The overall project involved the Runway Expansion to Fort Lauderdale-Hollywood International Airport (FLL) and modifications to US 1. The proposed Design-Build project consisted of development of five design packages plus associated work. Additional work included all of the ancillary and associated project elements that provided the new roadway and structure system. In addition, NE 10th Street was extended to connect to NE 7th Avenue and the contract included finalizing design plans and obtain all required permits and/or modifications.

CECOS provided environmental permitting and related consulting services for the design and construction of this important County project. CECOS also assisted in providing wetlands delineation, tree surveys, contamination assessments (for dewatering), species surveys, and environmental permitting during the design and construction phases. Environmental permitting services have included preparation of permit applications; support environmental surveys and documentation; coordination with agencies and submittal and tracking of all applications during design and construction of the runway project. CECOS also provided guidance on permit compliance issues.

CECOS prepared/obtained and/or modified the following permits for various design and construction phases:

- SFWMD Environmental Resource Permit
- SFWMD Dewatering Permit
- USACE Dredge/Fill Permit
- BC EPGMD Environmental Resource License
- BC EPGMD Surface Water Management License
- BC EPGMD Tree Removal License
- BC EPGMD Dewatering Authorization

CECOS also conducted Permit closeout activities for the above permits.

H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Cyriacks Environmental Consulting Service, Inc. (CECOS) was formed in 2003 to provide public and private sector clients with high quality, professional environmental and ecological consulting services. Wendy Cyriacks, with over 25 years of environmental experience in south Florida, is President of CECOS.

CECOS has the expertise and staffing to provide high quality environmental services to your needs. Our approach is to:

- · Provide our clients with innovative solutions to avoid and minimize impacts to our natural resources,
- Integrate projects into the environment, and
- Achieve the goals of our clients in a cost effective manner.

CECOS provides a wide range of environmental and ecological consulting services including NEPA documentation, environmental permitting, environmental monitoring and permit compliance, mitigation and the investigation and analysis of impacts to terrestrial, wetland and coastal marine resources in tropical and subtropical environments. We specialize in providing these services to public sector clients including Florida Department of Transportation, Palm Beach County Department of Airports, Broward County Aviation Department and Seaport Engineering and Construction (Port Everglades), Miami-Dade County, US Army Corps of Engineers (USACE), South Florida Water Management District (SFWMD), and various counties, municipalities and utilities. CECOS professional staff have over 95 years of combined environmental and ecological experience in south Florida.

CECOS is a 100% Woman Owned Company and is a certified Minority/Women Business Enterprise (M/WBE) with the State of Florida, a Disadvantaged Business Enterprise (DBE) and Small Business Enterprise (SBE) with the Florida Department of Transportation (FDOT), a SBE with the South Florida Water Management District (SFWMD), a Community Business Enterprise (CBE) with Broward County, Miami-Dade County SBE|GS and SBE|AE. CECOS is also self-certified with the Federal Government as a woman-owned, small business. CECOS is a Florida Corporation with its corporate office located in Deerfield Beach, Broward County, Florida.

Form **W-9** (Rev. 11-2017)

Cat. No. 10231X

Form W-9 (Rev. 11-2017) Page **2**

By signing the filled-out form, you:

- 1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
 - 2. Certify that you are not subject to backup withholding, or
- 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- 4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

- 1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
- 2. The treaty article addressing the income.
- 3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
- 4. The type and amount of income that qualifies for the exemption from tax.
- 5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

- 1. You do not furnish your TIN to the requester,
- 2. You do not certify your TIN when required (see the instructions for Part II for details),
 - 3. The IRS tells the requester that you furnished an incorrect TIN,
- 4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
- 5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see Special rules for partnerships, earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See Exemption from FATCA reporting code, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

p. 81

Form W-9 (Rev. 11-2017)

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note: ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

- b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.
- c. Partnership, LLC that is not a single-member LLC, C corporation, or S corporation. Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.
- d. Other entities. Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.
- e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 3

Check the appropriate box on line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3.

IF the entity/person on line 1 is a(n)	THEN check the box for
Corporation	Corporation
 Individual Sole proprietorship, or Single-member limited liability company (LLC) owned by an individual and disregarded for U.S. federal tax purposes. 	Individual/sole proprietor or single- member LLC
 LLC treated as a partnership for U.S. federal tax purposes, LLC that has filed Form 8832 or 2553 to be taxed as a corporation, or LLC that is disregarded as an entity separate from its owner but the owner is another LLC that is not disregarded for U.S. federal tax purposes. 	Limited liability company and enter the appropriate tax classification. (P= Partnership; C= C corporation; or S= S corporation)
Partnership	Partnership
Trust/estate	Trust/estate

Line 4, Exemptions

If you are exempt from backup withholding and/or FATCA reporting, enter in the appropriate space on line 4 any code(s) that may apply to you.

Exempt payee code.

- Generally, individuals (including sole proprietors) are not exempt from backup withholding.
- Except as provided below, corporations are exempt from backup withholding for certain payments, including interest and dividends.
- Corporations are not exempt from backup withholding for payments made in settlement of payment card or third party network transactions.
- Corporations are not exempt from backup withholding with respect to attorneys' fees or gross proceeds paid to attorneys, and corporations that provide medical or health care services are not exempt with respect to payments reportable on Form 1099-MISC.

The following codes identify payees that are exempt from backup withholding. Enter the appropriate code in the space in line 4.

- 1-An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2)
- 2-The United States or any of its agencies or instrumentalities
- 3—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities
- 4-A foreign government or any of its political subdivisions, agencies, or instrumentalities
- 5-A corporation
- 6—A dealer in securities or commodities required to register in the United States, the District of Columbia, or a U.S. commonwealth or possession
- 7—A futures commission merchant registered with the Commodity Futures Trading Commission
- 8-A real estate investment trust
- 9-An entity registered at all times during the tax year under the Investment Company Act of 1940
- 10-A common trust fund operated by a bank under section 584(a)
- 11-A financial institution
- 12—A middleman known in the investment community as a nominee or custodian
- 13-A trust exempt from tax under section 664 or described in section 4947

Form W-9 (Rev. 11-2017) Page **4**

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above. 1 through 13.

IF the payment is for	THEN the payment is exempt for				
Interest and dividend payments	All exempt payees except for 7				
Broker transactions	Exempt payees 1 through 4 and 6 through 11 and all C corporations. S corporations must not enter an exempt payee code because they are exempt only for sales of noncovered securities acquired prior to 2012.				
Barter exchange transactions and patronage dividends	Exempt payees 1 through 4				
Payments over \$600 required to be reported and direct sales over \$5,000 ¹	Generally, exempt payees 1 through 5 ²				
Payments made in settlement of payment card or third party network transactions	Exempt payees 1 through 4				

¹ See Form 1099-MISC, Miscellaneous Income, and its instructions.

Exemption from FATCA reporting code. The following codes identify payees that are exempt from reporting under FATCA. These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

A—An organization exempt from tax under section 501(a) or any individual retirement plan as defined in section 7701(a)(37)

B-The United States or any of its agencies or instrumentalities

C-A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

D-A corporation the stock of which is regularly traded on one or more established securities markets, as described in Regulations section 1.1472-1(c)(1)(i)

E—A corporation that is a member of the same expanded affiliated group as a corporation described in Regulations section 1.1472-1(c)(1)(i)

F—A dealer in securities, commodities, or derivative financial instruments (including notional principal contracts, futures, forwards, and options) that is registered as such under the laws of the United States or any state

G-A real estate investment trust

H—A regulated investment company as defined in section 851 or an entity registered at all times during the tax year under the Investment Company Act of 1940

I-A common trust fund as defined in section 584(a)

J—A bank as defined in section 581

K-A broker

 $L\!-\!A$ trust exempt from tax under section 664 or described in section 4947(a)(1)

M-A tax exempt trust under a section 403(b) plan or section 457(g) plan

Note: You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester,* later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.SSA.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/Businesses and clicking on Employer Identification Number (EIN) under Starting a Business. Go to www.irs.gov/Forms to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to www.irs.gov/OrderForms to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

² However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, gross proceeds paid to an attorney reportable under section 6045(f), and payments for services paid by a federal executive agency.

Form W-9 (Rev. 11-2017) Page **5**

- Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.
 You must give your correct TIN, but you do not have to sign the certification.
- 2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.
- **3. Real estate transactions.** You must sign the certification. You may cross out item 2 of the certification.
- 4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).
- 5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

For this type of account:	Give name and SSN of:
1. Individual	The individual
Two or more individuals (joint account) other than an account maintained by an FFI	The actual owner of the account or, if combined funds, the first individual on the account ¹
Two or more U.S. persons (joint account maintained by an FFI)	Each holder of the account
Custodial account of a minor (Uniform Gift to Minors Act)	The minor ²
5. a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee ¹
b. So-called trust account that is not a legal or valid trust under state law	The actual owner ¹
Sole proprietorship or disregarded entity owned by an individual	The owner ³
7. Grantor trust filing under Optional Form 1099 Filing Method 1 (see Regulations section 1.671-4(b)(2)(i) (A))	The grantor*
For this type of account:	Give name and EIN of:
Disregarded entity not owned by an individual	The owner
9. A valid trust, estate, or pension trust	Legal entity ⁴
Corporation or LLC electing corporate status on Form 8832 or Form 2553	The corporation
Association, club, religious, charitable, educational, or other tax- exempt organization	The organization
12. Partnership or multi-member LLC	The partnership
13. A broker or registered nominee	The broker or nominee

For this type of account:	Give name and EIN of:
14. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity
15. Grantor trust filing under the Form 1041 Filing Method or the Optional Form 1099 Filing Method 2 (see Regulations section 1.671-4(b)(2)(i)(B))	The trust

¹ List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

⁴ List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships*, earlier.

*Note: The grantor also must provide a Form W-9 to trustee of trust. Note: If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- · Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

² Circle the minor's name and furnish the minor's SSN.

³ You must show your individual name and you may also enter your business or DBA name on the "Business name/disregarded entity" name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

Form W-9 (Rev. 11-2017)

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to <code>phishing@irs.gov</code>. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at <code>spam@uce.gov</code> or report them at <code>www.ftc.gov/complaint</code>. You can contact the FTC at <code>www.ftc.gov/idtheft</code> or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see <code>www.ldentityTheft.gov</code> and Pub. 5027.

Visit www.irs.gov/IdentityTheft to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

SWORN STATEMENT ON PUBLIC ENTITY CRIMES UNDER FLORIDA STATUTES CHAPTER 287.133(3)(a).

1.	This sworn statement is submitted Chen Moore and Associates, Inc.	(name of entity submitting
	sworn statement) whose business address is 500 W Cypress Creek Rd., Ste. 630	, Fort Laudandalie, FL 33309
	applicable) its Federal Employer Identification Number (FEIN) is 59-2739866	. (If the entity has
	no FEIN, include the Social Security Number of the individual signing this sworn s	tatement:
	.)	
2.	My name is Peter Moore, P.E., F.ASCE, ENV SP, LEED AP and my	
	(Please print name of individual signing)	
	relationship to the entity named above is President and CEO	

- I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a 3. violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
- I understand that a "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a 4. finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.
- 5. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:
 - 1. A predecessor or successor of a person convicted of a public entity crime: or
 - 2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The Cityship by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.
- I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or 6. any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders,

REQUEST FOR PROPOSAL FORM

employees, members, and agents who are active in management of an entity.

7. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.) A) Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989. ☐ B) The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND (Please indicate which additional statement applies.) ☐ B1) There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order.) ☐ B2) The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order.) The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services.) Chen Moore and Associates, Ihc. EQUAL BENEFITS CERTIFICATION FORM FOR DOMESTIC PARTNERS AND ALL MARRIED COUPLES

Except where federal or state law mandates to the contrary, a Contractor awarded a Contract pursuant to a competitive solicitation shall provide benefits to Domestic Partners and spouses of its employees, irrespective of gender, on the same basis as it provides benefits to employees' spouses in traditional marriages.

The Contractor shall provide the City and/or the City Manager or his/her designee, access to its records for the purpose of audits and/or investigations to ascertain compliance with the provisions of this section, and upon request shall provide evidence that the Contractor is in compliance with the provisions of this section upon each new bid, contract renewal, or when the City Manager has received a complaint or has reason to believe the Contractor may not be in compliance with the provisions of this section. Records shall include but not be limited to providing the City and/or the City Manager or his/her designee with certified copies of the Contractor's records pertaining to its benefits policies and its employment policies and practices.

The Contractor must conspicuously make available to all employees and applicants for employment the following statement:

"During the performance of a contract with the City of Pembroke Pines, Florida, the Contractor will provide Equal Benefits to its employees with spouses, as defined by Section 35.39 of the City's Code of Ordinances, and its employees with Domestic Partners and all Married Couples".

The posted statement must also include a City contact telephone number and email address which will be provided to each contractor when a covered contract is executed.

SECTION 1 DEFINITIONS

- 1. Benefits means the following plan, program or policy provided or offered by a contractor to its employees as part of the employer's total compensation package which may include but is not limited to sick leave, bereavement leave, family medical leave, and health benefits.
- 2. Cash Equivalent mean the amount of money paid to an employee with a domestic partner or spouse in lieu of providing benefits to the employee's domestic partner or spouse. The cash equivalent is equal to the employer's direct expense of providing benefits to an employee for his or her spouse from a traditional marriage.
- 3. Covered Contract means a contract between the City and a contractor awarded subsequent to the date when this section becomes effective valued at over \$25,000 or the threshold amount required for competitive bids as required in section 35.18(A) of the Procurement Code.
- 4. Domestic Partner shall mean any two (2) adults of the same or different sex who have registered as domestic partners with a governmental body pursuant to state or local law authorizing such registration, or with an internal registry maintained by the employer of at least one of the domestic partners. A contractor may institute an internal registry to allow for the provision of equal benefits to employees with domestic partners who do not register their partnerships pursuant to a governmental body authorizing such registration, or who are located in a jurisdiction where no such governmental domestic partnership registry exists. A contractor that institutes such registry shall not impose criteria for registration that are more stringent than those required for domestic partnership registration by the City of Pembroke Pines.
- 5. Equal benefits means the equality of benefits between employees with spouses and/or dependents of spouses and employees with domestic partners and/or dependents of domestic partners, and/or between spouses of employees and/or dependents of spouses and domestic partners of employees and/or dependents of domestic partners.

file: ///chenmoore.com/...0-%20 Profess/rfp/selected Documents/Attachment%20 G%20-%20 Equal%20 Benefits%20 Certification%20 Form.html [7/16/2018 8:44:32 AM]

REQUEST FOR PROPOSAL FORM

- 6. Spouse means one member of a married pair legally married under the laws of any state within the United States of America or any other jurisdiction under which such marriage is legally recognized, irrespective of gender.
- 7. Traditional marriage means a marriage between one man and one woman.

SECTION 2 CERTIFICATION OF CONTRACTOR

The firm providing a response, by virtue of the signature below, certifies that it is aware of the requirements of Section 35.39 "City Contractors providing Equal Benefits for Domestic Partners and all Married Couples" of the City's Code of Ordinances, and certifies the following (Check only one box below):

A. Contractor currently complies with the requirements of this section; or ☐ B. Contractor will comply with the conditions of this section at the time of contract award; or ☐ C. Contractor will not comply with the conditions of this section at the time of contract award: or D. Contractor does not comply with the conditions of this section because of the following allowable exemption (Check only one box below): 1. The Contractor does not provide benefits to employees' spouses in traditional marriages; ☐ 2. The Contractor provides an employee the cash equivalent of benefits because the Contractor is unable to provide benefits to employees' Domestic Partners or spouses despite making reasonable efforts to provide them. To meet this exception, the Contractor shall provide a notarized affidavit that it has made reasonable efforts to provide such benefits. The affidavit shall state the efforts taken to provide such benefits and the amount of the cash equivalent. Cash equivalent means the amount of money paid to an employee with a Domestic Partner or spouse rather than providing benefits to the employee's Domestic Partner or spouse. The cash equivalent is equal to the employer's direct expense of providing benefits to an employee's spouse; ☐ 3. The Contractor is a religious organization, association, society, or any non-profit charitable or educational institution or organization operated supervised or controlled by or in conjunction with a religious organization, association, or society; ☐ 4. The Contractor is a governmental agency; The certification shall be signed by an authorized officer of the Contractor. Failure to provide such certification (by checking the appropriate boxes above along with completing the information below) shall result in a Contractor being deemed non-responsive. VENDOR DRUG-FREE WORKPLACE CERTIFICATION FORM

SECTION 1 GENERAL TERM

Preference may be given to vendors submitting a certification with their bid/proposal certifying they have a drug-free workplace in accordance with Section 287.087, Florida Statutes. This requirement affects all public entities of the State and becomes effective January 1, 1991. The special condition is as follows:

IDENTICAL TIE BIDS - Preference may be given to businesses with drug-free workplace programs. Whenever two or more bids that are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drugfree workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

- 1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
- Inform employees about the dangers of drug abuse in the workplace, the business's policy of
 maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee
 assistance programs, and the penalties that may be imposed upon employees for drug abuse
 violations.
- 3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
- 4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after each conviction.
- Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
- 6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

SECTION 2 AFFIRMATION

ye	and describe all successful Bond claims made to your surety (ies) during the last five (5) ears. The list and descriptions should include claims against the bond of the Proposer and a predecessor organization(s).
	N/A
_	
Pr al	Il claims, arbitrations, administrative hearings and lawsuits brought by or against the roposer or its predecessor organizations(s) during the last (10) years. The list shall include I case names; case, arbitration or hearing identification numbers; the name of the project ver which the dispute arose; and a description of the subject matter of the dispute.
_	Please refer to the following pages for a complete list of CMA's litigation history.
-	
_	

In today's litigious society, businesses are constantly confronted with civil claims and Chen Moore and Associates has not been spared that exposure. With respect to current/pending or past litigation/arbitration in the last seven (7) years CMA has been involved in three cases which are explained in history detailed below. We assert that this history (1) will have no material negative impact on CMA's ability to execute this project, (2) does not display an undesirable pattern of litigation with owners over construction matters and (3) does not have had a claim against its bonding company in the last seven (7) years wherein the bonding company was required to take over and complete the project or pay outstanding liens on the project.

City of Pembroke Pines

We wish to reiterate that just because we are involved in litigation, it does not reflect on our culpability in the cases. In fact, we believe our full disclosure in these matters displays good faith. We welcome the Evaluation Committee to review CMA and all other vendors for their willingness to disclose active and past cases by visiting any of the respective Clerk of the Court Websites. As an example, the Miami-Dade County Civil, Family and Probate Courts Online System (https://www2.miami-dadeclerk.com/ocs/?AspxAutoDetectCookieSupport=1) will display all three cases listed below.

Case No: 11-30999 CA 02 in the 11th Circuit Court of Miami-Dade

Case Name: Steven I. Gunther vs. M. Vila Associates, City of Miami Beach, Chen and Associates Consulting Engineers, Inc.

Date Filed: June 4, 2012

Type of Case: civil

Claim or Cause of Action: Chen Moore and Associates is a co-defendant in a personal injury suit with one count for negligence.

Brief Description: During a streetscaping project, the complaintant asserts that the plaintiff fell off their motor scooter while driving through a construction zone.

Amount: more than \$25,000; exact amount not known

Agencies Involved: 11th Circuit Court of Miami-Dade County, 175 NW 1st Avenue, Miami FL 33128; City of Miami Beach Police Department, 1100 Washington Avenue Miami Beach, FL 33139

Disposition of Case: closed / dismissed

Opposing Counsel: David A. Hagen, P.A., Phone: 305.373.4200; hagen.esq@lawyer.com

In Gunther v. M. Vila, City of Miami Beach and CMA; Case Number 2011-030999-CA-01, the plaintiff asserted a negligence action alleging that he was injured when he rode his scooter over a pothole in a crosswalk located within the City of Miami Beach. The plaintiff alleged that the pothole was the result of defective construction of the crosswalk and the failure to inspect the defective construction. M. Vila was the contractor that performed the work and the City of Miami Beach retained the responsibility for safety inspections. CMA had no contractual responsibility relating to the alleged defective work and inspection. CMA was improperly included as a defendant and the case against CMA was dismissed.

Case No: 13-025280 CA-01 (05)

Case Name: Luis A. Nazario as Personal Representative of Estate of Miriam Cabrera v. M. Vila Associates, City of Miami Beach, Metro Express, and Chen Moore & Associates

Date Filed: March 12, 2014

Type of Case: Civil

Claim or Cause of Action: Chen Moore and Associates is a co-defendant in a wrongful death action with one count of negligence

Brief Description: The complaint asserts that, during a streetscaping project, the defendant fell off the back of a motorcycle while driving through a construction zone

Amount: More than \$25,000; exact amount not known

Agencies Involved: 11th Judicial Circuit Court in and for Miami-Dade County, 175 NW 1st Avenue, Miami, FL 33128; City of Miami Beach

Disposition of Case: closed / dismissed

Opposing Counsel: Hyram M. Montero, P.A., hmontero@monterolaw.com, 954.767.6500

In Nazario v. M. Vila, City of Miami Beach, Metro Express, and CMA; Case Number 2013-025280-CA-01, CMA was similarly sued despite having no contractual responsibility with respect to the alleged defective work. This negligence action arose out of the death of a passenger on a motorcycle that is alleged to have hit a sanitary sewer manhole located within the City of Miami Beach. CMA had no responsibility whatsoever relating to sanitary sewer placement or construction. CMA designed the water main and stormwater system and contracted to provide part-time RPR services with respect to the work CMA designed. The sanitary sewer was designed by the City of Miami Beach and installed by the city's contractor. The City of Miami Beach hired another consultant to oversee and inspect the sanitary sewer work. The plaintiff further alleged that CMA was negligent in the design, oversight and implementation of maintenance of traffic ("MOT"), notwithstanding the fact that CMA had no responsibility with respect to MOT. The city's contractor had design and implementation responsibility and the review, approval and oversight of MOT was the responsibility of the City of Miami Beach. Notwithstanding this, CMA has been included as a defendant. This case is still pending, but CMA believes the court will ultimately find that it was not a responsible party.

Case No: 16-011970 CA-01

Case Name: Valentino Castro v. M. Vila Associates and Chen Moore & Associates

Date Filed: May 11, 2016

Type of Case: Civil

Claim or Cause of Action: Chen Moore and Associates is a co-defendant in a wrongful death action with one count of negligence

Brief Description: The complaint asserts that, during a streetscaping project, the complainant was ejected from a motorcycle while driving through a construction zone

Amount: More than \$25,000; exact amount not known

Agencies Involved: 11th Judicial Circuit Court in and for Miami-Dade County, 175 NW 1st Avenue, Miami, FL 33128; City of Miami Beach

Disposition of Case: closed / dismissed

Opposing Counsel: Hugo V. Alvarez, P.A., halvarez@alvarezbarbara.com, 305.263.7700

Similar to the Nazario Case, in Castro v. M. Vila, City of Miami Beach, Metro Express, and CMA; Case Number 2016-011970-CA-01, CMA was similarly sued despite having no contractual responsibility with respect to the alleged defective work. This negligence action arose out of the death of a passenger on a motorcycle that is alleged to have hit a sanitary sewer manhole located within the City of Miami Beach. CMA had no responsibility whatsoever relating to sanitary sewer placement or construction. CMA designed the water main and stormwater system and contracted to provide part-time RPR services with respect to the work CMA designed. The sanitary sewer was designed by the City of Miami Beach and installed by the city's contractor. The City of Miami Beach hired another consultant to oversee and inspect the sanitary sewer work. The plaintiff further alleged that CMA was negligent in the design, oversight and implementation of maintenance of traffic ("MOT"), notwithstanding the fact that CMA had no responsibility with respect to MOT. The city's contractor had design and implementation responsibility and the review, approval and oversight of MOT was the responsibility of the City of Miami Beach. Notwithstanding this,

CMA was included as a defendant.

Case No: 17-017197-CA-06

Date Filed: 7/31/17

Agencies Involved: 11th Circuit Court

CMA is a co-defendant in a slip and fall accident with one count of negligence.

The complaint asserts that, after a streetscaping project, the plaintiff fell and injured themselves on an uneven sidewalk.

Disposition of Case: closed / dismissed

City of Pembroke Pines

Attachment I

Attachment I

Describe the firm's local experience/nature	of service	with contracts	of similar	size	and
complexity, it the previous three (3) years:					

Please refer to Section 2 for our firm's local project experience and specifically Section F of the 330 form projects.

The PROPOSER acknowledges and understands that the information contained in response to this Qualification Statement shall be relied upon by CITY in awarding the contract and such information is warranted by PROPOSER to be true. The discovery of any omission or misstatement that materially affects the PROPOSER'S qualifications to perform under the contract shall cause the CITY to reject the Bid, and if after the award, to cancel and terminate the award and/or contract.

SCRUTINIZED COMPANY CERTIFICATION **PURSUANT TO FLORIDA STATUTE § 287.135**

IPeter Moore, P.E., F.ASCE, ENV SP, LEED APon behalf of

Chen Moore and Associates

Print Name and Title

Company Name

certify that

Chen Moore and Associates

Company Name

1. 2. 3. 4.

Does not participate in a boycott of Israel; and
Is not on the Scrutinized Companies that Boycott Israel list; and
Is not on the Scrutinized Companies with Activities in Sudan List; and
Is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; and

Has not engaged in business operations in Syria.

Submitting a false certification shall be deemed a material breach of contract. The City shall provide notice, in writing, to the Contractor of the City's determination concerning the false certification. The Contractor shall have ninety (90) days following receipt of the notice to respond in writing and demonstrate that the determination of false certification was made in error. If the Contractor does not demonstrate that the City's determination of false certification was made in error then the City shall have the right to terminate the contract and seek civil remedies pursuant to Florida Statute § 287.135.

Section 287.135, Florida Statutes, prohibits the City from: 1) Contracting with companies for goods or services in any amount if at the time of bidding on, submitting a proposal for, or entering into or renewing a contract if the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, F.S. or is engaged in a boycott of Israel; and 2) Contracting with companies, for goods or services over \$1,000,000.00 that are on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector list, created pursuant to s. 215.473, or are engaged in business operations in Series. business operations in Syria.

As the person authorized to sign on behalf of the Contractor, I hereby certify that the company identified above in the section entitled "Contractor Name" does not participate in any boycott of Israel, is not listed on the Scrutinized Companies that Boycott Israel List, is not listed on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector List, and is not engaged in business operations in Syria. I understand that pursuant to section 287.135, Florida Statutes, the submission of a false certification may subject the company to civil penalties, attorney's fees, and/or costs. I further understand that any contract with the City for goods or services may be terminated at the option of the City if the company is found to have submitted a false certification or has been placed on the Scrutinized Companies with Activities in Sudan list or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.

NON-COLLUSIVE AFFIDAVIT

BIDDER is the **President and CEO**,

(Owner, Partner, Officer, Representative or Agent)

BIDDER is fully informed respecting the preparation and contents of the attached Bid and of all pertinent circumstances respecting such Bid;

Such Bid is genuine and is not a collusive or sham Bid;

Neither the said BIDDER nor any of its officers, partners, owners, agents, representative, employees or parties in interest, including this affidavit, have in any way colluded, conspired, connived or agreed, directly or indirectly, with any other BIDDER, firm or person to submit a collusive or sham Bid in connection with the Contract for which the attached Bid has been submitted; or to refrain from bidding in connection with such Contract; or have in any manner, directly or indirectly, sought by agreement or collusion, or communications, or conference with any BIDDER, firm, or person to fix the price or prices in the attached Bid or any other BIDDER, or to fix any overhead, profit, or cost element of the Bid Price or the Bid Price of any other BIDDER, or to secure through any collusion conspiracy, connivance, or unlawful agreement any advantage against (Recipient), or any person interested in the proposed Contract;

The price of items quoted in the attached Bid are fair and proper and are not tainted by collusion, conspiracy, connivance, or unlawful agreement on the part of the BIDDER or any other of its agents, representatives, owners, employees or parties in interest, including this affidavit.

Attachment D

SWORN STATEMENT ON PUBLIC ENTITY CRIMES UNDER FLORIDA STATUTES CHAPTER 287.133(3)(a).

- 1. This sworn statement is submitted **Chen Moore and Associates** (name of entity submitting sworn statement) whose business address is **500 West Cypress Creek Road, Suite 630 Fort Lauderdale FL 33309** and (if applicable) its Federal Employer Identification Number (FEIN) is **59-2739866**. (If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement: .)
- 2. My name is **Peter Moore, P.E., F.ASCE, ENV SP, LEED AP** and my (Please print name of individual signing)

relationship to the entity named above is **President and CEO**.

- 3. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
- 4. I understand that a "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.
- 5. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:
 - 1. A predecessor or successor of a person convicted of a public entity crime: or
 - 2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The Cityship by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

- 6. I understand that a "person" as defined in Paragraph 287.133(1)(e), <u>Florida Statutes</u>, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.
- 7. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies.)

☑ A) Neither the entity submitting this sworn statement, nor any officers, directors, executives,
partners, shareholders, employees, members, or agents who are active in management of the entity,
nor any affiliate of the entity have been charged with and convicted of a public entity crime
subsequent to July 1, 1989.

☐ B) The entity submitting this sworn statement, or one or more of the officers, directors,
executives, partners, shareholders, employees, members, or agents who are active in management
of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime
subsequent to July 1, 1989, AND (Please indicate which additional statement applies.)

attach a copy of the final order.)
hearing officer did not place the person or affiliate on the convicted vendor list. (Please
the State of Florida, Division of Administrative Hearings. The final order entered by the
☐ B1) There has been a proceeding concerning the conviction before a hearing officer of

☐ B2) The person or affiliate was placed on the convicted vendor list. There has been a
subsequent proceeding before a hearing officer of the State of Florida, Division of
Administrative Hearings. The final order entered by the hearing officer determined that it
was in the public interest to remove the person or affiliate from the convicted vendor list.
(Please attach a copy of the final order.)

☐ B3) The person or affiliate has not been placed on the convicted vendor list.	(Please
describe any action taken by or pending with the Department of General	Services.)

EQUAL BENEFITS CERTIFICATION FORM FOR DOMESTIC PARTNERS AND ALL MARRIED COUPLES

Except where federal or state law mandates to the contrary, a Contractor awarded a Contract pursuant to a competitive solicitation shall provide benefits to Domestic Partners and spouses of its employees, irrespective of gender, on the same basis as it provides benefits to employees' spouses in traditional marriages.

The Contractor shall provide the City and/or the City Manager or his/her designee, access to its records for the purpose of audits and/or investigations to ascertain compliance with the provisions of this section, and upon request shall provide evidence that the Contractor is in compliance with the provisions of this section upon each new bid, contract renewal, or when the City Manager has received a complaint or has reason to believe the Contractor may not be in compliance with the provisions of this section. Records shall include but not be limited to providing the City and/or the City Manager or his/her designee with certified copies of the Contractor's records pertaining to its benefits policies and its employment policies and practices.

The Contractor must conspicuously make available to all employees and applicants for employment the following statement:

"During the performance of a contract with the City of Pembroke Pines, Florida, the Contractor will provide Equal Benefits to its employees with spouses, as defined by Section 35.39 of the City's Code of Ordinances, and its employees with Domestic Partners and all Married Couples".

The posted statement must also include a City contact telephone number and email address which will be provided to each contractor when a covered contract is executed.

SECTION 1 DEFINITIONS

- 1. **Benefits** means the following plan, program or policy provided or offered by a contractor to its employees as part of the employer's total compensation package which may include but is not limited to sick leave, bereavement leave, family medical leave, and health benefits.
- 2. Cash Equivalent mean the amount of money paid to an employee with a domestic partner or spouse in lieu of providing benefits to the employee's domestic partner or spouse. The cash equivalent is equal to the employer's direct expense of providing benefits to an employee for his or her spouse from a traditional marriage.
- 3. Covered Contract means a contract between the City and a contractor awarded subsequent to the date when this section becomes effective valued at over \$25,000 or the threshold amount required for competitive bids as required in section 35.18(A) of the Procurement Code.
- 4. Domestic Partner shall mean any two (2) adults of the same or different sex who have registered as domestic partners with a governmental body pursuant to state or local law authorizing such registration, or with an internal registry maintained by the employer of at least one of the domestic partners. A contractor may institute an internal registry to allow for the provision of equal benefits to employees with domestic partners who do not register their partnerships pursuant to a governmental body authorizing such registration, or who are

located in a jurisdiction where no such governmental domestic partnership registry exists. A contractor that institutes such registry shall not impose criteria for registration that are more stringent than those required for domestic partnership registration by the City of Pembroke Pines.

- 5. Equal benefits means the equality of benefits between employees with spouses and/or dependents of spouses and employees with domestic partners and/or dependents of domestic partners, and/or between spouses of employees and/or dependents of spouses and domestic partners of employees and/or dependents of domestic partners.
- **6. Spouse** means one member of a married pair legally married under the laws of any state within the United States of America or any other jurisdiction under which such marriage is legally recognized, irrespective of gender.
- 7. Traditional marriage means a marriage between one man and one woman.

SECTION 2 CERTIFICATION OF CONTRACTOR

The firm providing a response, by virtue of the signature below, certifies that it is aware of the requirements of Section 35.39 "City Contractors providing Equal Benefits for Domestic Partners and all Married Couples" of the City's Code of Ordinances, and certifies the following (**Check only one box below**):

The certification shall be signed by an authorized officer of the Contractor. Failure to provide such certification (by checking the appropriate boxes above along with completing

the information below) shall result in a Contractor being deemed non-responsive.

COMPANY NAME: Chen Moore and Associates

AUTHORIZED OFFICER NAME / SIGNATURE: Peter Moore, P.E., F.ASCE, ENV SP, LEED AP

Attachment L

SCRUTINIZED COMPANY CERTIFICATION PURSUANT TO FLORIDA STATUTE § 287.135

I, Peter Moore, P.E., F.ASCE, ENV SP, LEED AP, President and CEO,

on behalf of

Chen Moore and Associates,

Print Name and Title

Company Name

certify that

Chen Moore and Associates

Company Name

- 1. Does not participate in a boycott of Israel; and
- 2. Is not on the Scrutinized Companies that Boycott Israel list; and
- 3. Is not on the Scrutinized Companies with Activities in Sudan List; and
- 4. Is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; and
- 5. Has not engaged in business operations in Syria.

Submitting a false certification shall be deemed a material breach of contract. The City shall provide notice, in writing, to the Contractor of the City's determination concerning the false certification. The Contractor shall have ninety (90) days following receipt of the notice to respond in writing and demonstrate that the determination of false certification was made in error. If the Contractor does not demonstrate that the City's determination of false certification was made in error then the City shall have the right to terminate the contract and seek civil remedies pursuant to Florida Statute § 287.135.

Section 287.135, Florida Statutes, prohibits the City from: 1) Contracting with companies for goods or services in any amount if at the time of bidding on, submitting a proposal for, or entering into or renewing a contract if the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, F.S. or is engaged in a boycott of Israel; and 2) Contracting with companies, for goods or services over \$1,000,000.00 that are on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector list, created pursuant to s. 215.473, or are engaged in business operations in Syria.

As the person authorized to sign on behalf of the Contractor, I hereby certify that the company identified above in the section entitled "Contractor Name" does not participate in any boycott of Israel, is not listed on the Scrutinized Companies that Boycott Israel List, is not listed on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector List, and is not engaged in business operations in Syria. I understand that pursuant to section 287.135, Florida Statutes, the submission of a false certification may subject the company to civil penalties, attorney's fees, and/or costs. I further understand that any contract with the City for goods or services may be terminated at the option of the City if the company is found to have submitted a false certification or has been placed on the Scrutinized Companies with Activities in Sudan list or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.
