60 MIL Swimming Pool Reinforced Membrane Technical Data and Engineering Notes

Part 1: General • Part 2: Products • Part 3: Execution

Technical Data & Engineering Notes

These specifications, in the Construction Specification Institute format, are to be used as part of a project or as stand-alone specification for the purchase of a swimming pool or an aquatic facility. Other versions are available from poolFORCE® or at www.pool-FORCE.com. We welcome the opportunity to discuss your needs or tailor a specification to your particular requirements.

This specification is to establish the minimum performance and quality standards, not to limit competition. Use of this specification does not preclude other manufacturers or suppliers from bidding. In fact, the use of a comprehensive and detailed specification ensures that the purchaser or owner actually receives the expected quality and performance required from such a system.

poolFORCE® recommends that purchasers understand their needs, specify the item that meets their requirements and demand that all potential suppliers meet those minimum requirements.

Please contact poolFORCE® for assistance in selecting and specifying your swimming pool, aquatic facility or water feature. poolFORCE® encourages the use of these specifications and grants permission for modifications, reproduction, change or distribution of these specifications.

ELBTAL USA, Inc. maintains the rights of this document, provided for the use of selected recipients in conjunction with equipment, systems, or services provided by ELBTAL USA, Inc. Third parties may copy and/or distribute this document for the same purpose.

GENERAL, Part 1

1.1 Related Documents

A. The provision of the Notice to Bidders, Instructions to Bidders, Proposals, General Conditions, Supplementary Conditions, General Requirements, related Sections and other Divisions of these documents, if used as part of this project, are included as a part of this Section as though bound herein.

1.2 Summary

A. This specification describes the installation of a complete 60 MIL reinforced PVC membrane lining system specifically designed and formulated for use in swimming pools. The system shall consist of two flexible sheets made of plasticized polyvinyl chloride (PVC-P) joined together with an inner polyester fabric in combination with required accessory items to complete the installation. The sections of material shall be fuse-bonded together at the site to form a watertight continuous membrane lining. The system shall be installed in accordance with the configuration as detailed on the drawings, including all necessary equipment within this specification. Individual rolls of 60 MIL reinforced PVC membrane shall be custom fitted and welded together at the job site, using hot air welding techniques. Upon completion, the system shall provide a waterproof, yet flexible membrane, complete with all necessary fittings and markings.

B. Performance characteristics and installation qualifications established herein reflect the minimum requirements for any membrane system to be used on this project. Systems not meeting the minimum requirements established for this project will not be considered.

C. This specification includes, but is not limited to, the following components:

D. Flexible PVC membrane

E. Slip-resistant reinforced PVC membrane

F. Separator fleece

G. Coated PVC steel strips and angles

H. Galvanized, and/or coated PVC Stainless Steel strips and angles

I. Sanitizing agents

J. Fittings

K. Edge sealants

L. Adhesive

M. This Specification describes poolFORCE® 60 MIL reinforced PVC Membrane Lining System as illustrated by the drawings. Should the requirements of this specification contradict any other section of the project specifications, this section shall govern.

1.3 Scope of Work

A. Work Included: The work specified herein and as indicated on the drawings includes, but is not necessarily limited to, furnishing all the labor, materials, equipment, appliances, services and drayage to all the operations related to the fabrication and installation of the 60 MIL reinforced PVC Membrane System. The work shall be as herein specified and as denoted on the accompanying drawings.

B. Related Work and Responsibilities Assigned to Others: Coordinate all activities with the appropriate party. Advise owner's representative if proper conditions are not maintained or if responsibilities of others are not properly completed. Related work responsibilities generally included, but are not limited to the following:

1. Provide and maintain appropriate and suitable environmental conditions, including temporary heat shelter and weather protection for the completion of the work.
2. Surface preparation beyond the scope of normal surface patching of concrete, surface repair or cleaning of the existing interior surfaces prior to system installation.
3. Perimeter sealant, caulking, or other sealing except sealants that are integral to the PVC Membrane System.
4. Removal and reinstallation of deck and accessory equipment.
5. Provide means for storage and disposal of scrap material, coating debris, and other material in close proximity to pool area.
6. Electrical work, including grounding of the pool, installation of underwater lights or other components, or any related electrical work.
7. Temporary facilities, including electrical power close to the installation site.
8. Provide temporary water at 50 psi (to gallons per minutes) minimum for cleaning, rinsing, and test purposes, as well as facilities for draining pool and maintaining workable conditions within the pool area.
9. Final cleaning of pool area outside of the PVC Membrane System.
10. Provide and maintain all necessary barricades, signs, lights, flares, and other security as required protecting workmen and the public.
11. Drain pool, coordinate with contractor to ensure proper hydrostatic relief is maintained. Closely monitor water table around pool to minimize hydrostatic damage to pool shell.
12. Immediately after installation, protect pool from damage, contamination, spatter, and spillage caused by construction work of other trades. This shall include covering of pool with protective materials when necessary, and responsibility for prompt repair or corrective measures in the event of damage.

C. Where items of the architectural, mechanical, or electrical general conditions, special conditions, and specifications are repeated in this Section of the Specifications or Project Documents, it is intended to call particular attention or qualify these items or to indicate that the requirements of this Section shall govern in the event of conflict with other Sections. It is not intended that any other parts of the documents shall be assumed to be omitted if not repeated herein. Should the requirements of any other Section of the project documents contradict this section, the requirements of this section shall govern.

1.4 Definitions

A. References Standards: Certain applicable reference standards are incorporated herein to the extent such references are relevant, with the latest revision applicable including, but not limited to:

1. Fabrication standards:

ASTM -- American Society for Testing Materials
ANSI -- Americans National Standards Institute
NSF -- National Sanitation Foundation

2. The following are used as applicable:

NCAA -- National Collegiate Athletic Association
FINA -- Fédération Internationale de Natation Amateur
USS -- United States Swimming Incorporated

B. The intent of these specifications is not to establish specific quantities, amounts, or dimensions. Thus, the reference to “one,” “each,” “an,” “a,” or like wording is for semantic purposes only. Unless specifically stipulated otherwise, provide materials, equipment, and items as detailed on the drawings or as reasonably required for complete, operational PVC Membrane System installation(s).

1.5 Substitutions

A. A detailed investigation has been completed on the PVC Membrane System. The design and operation of adjoining equipment and systems are based upon the specified membrane system. All base bids shall include only that equipment and systems listed herein or subsequently approved by addendum. The Owner reserves the right to reject any and all substitutions without cause and for any reason whatsoever, and the contractor is obligated to provide only the products, equipment or systems as described by the specified manufacturer.

1.6 Trade Names

A. When a particular manufacturer’s product, system, or brand name is designated in the project documents, either in the drawings, specifications, or addenda thereto, only such designated products or systems by the named manufacturer may be provided.

1. When reference is made in the project documents to trade names, brand names, or the products of a particular manufacturer, such references are made solely to indicate what products or systems may be furnished under the base bid and are not intended to restrict competition. Application for the approval of products, systems, or trade or brand names that are different from those mentioned in the project documents must be provided in writing to the architect a minimum of 10 days before the date set for the opening of bids.

2. The burden of providing acceptability rests with the applicant and any application for approval must be accompanied with adequate and sufficient technical data, drawings, and details to clearly and convincingly establish beyond all doubt that the proposed product or system meets or exceeds all express requirements of the project documents.

3. The request for approval of other products, systems, trade names or brand names must be received and approvals published by addendum before designated products or systems by the named manufacturer are provided.

1.7. Sequencing and Scheduling

A. Coordinate all work activities and installation of the PVC Membrane System with other building components and the work activities of other trades.

1.8 Drawings

A. The drawings, generally diagrammatic, are intended to convey the scope of work and indicate general arrangement. The drawings are intended for contractors having experience, skill and discretion in the execution of the work implied by the drawings.

B. The contractor shall, without extra charge, make reasonable modifications in the layout as needed to prevent conflict with work of other trades or for proper execution of the work, if directed by the consultant or required for the successful completion of the project. Under no circumstances shall any sizes be decreased or increased significantly or radical changes made in any part of the installation without the written consent of the consultant or the owner.

1.9 Submittals

A. Upon notice to proceed under the contract, installation details and submittal documents shall be provided, fully illustrating the materials and procedures to be used. These details and submittal documents once accepted by the owner or owner's representative, shall be the basis for the fabrication, installation and inspection.

B. Product Data: Submit manufacturer's technical information and product data, including basic materials and installation instructions for the PVC Membrane System including the following:

1. List each material finished and application and cross-reference to the shop drawing(s).
2. Provide dimensional shop drawings showing all pertinent dimensions.

C. Program and Procedures: Prepare and submit a summary of the installation program which involves scheduling, preparation and installation procedures, quality control and project close-out. Submit to architect for approval.

D. Submit comprehensive operations and maintenance manuals. Include recommendations for corrective action of typical situations that may be encountered.

1. Submit recommended and required values for swimming pool water chemistry and other operational aspects of maintaining the swimming pool facilities.

2. Maintenance Instructions and Maintenance Program: Provide complete descriptive information detailing proper care, maintenance and cleaning of the system.

1.10 Quality Assurance

A. This is a performance specification. The complete and functional reinforced PVC Membrane System, as specified herein and shown on the drawings, is to be the basis for receiving bids. While it is not the intent of these specifications to, in any way, limit competition or restrict the bidder in the preparation of his bid, the bidder shall offer products and materials in literal compliance with these specifications. The bidders are cautioned that offering products or systems failing to meet these specifications will be considered non-responsive.

B. The PVC Membrane System shall be the product of a firm having at least 10 years experience in the design, manufacture and installation of PVC Membrane Systems used in swimming pool, aquatic or water feature applications. The firm also must have at least 10 installations worldwide of similar projects currently in satisfactory operation for no less than 2 years. All systems shall be in compliance with the code requirements that govern in the state of the installation.

1. In the event an alternate manufacturer's system is approved, all contractors will be so advised per addendum prior to bid opening to allow for inclusion of such a system or equipment in their bids. In the absence of approval for an alternate manufacturer, only the specified manufacturer's system may be incorporated in the project.

2. Listing or subsequent approval of a particular manufacturer as an approved manufacturer does not constitute acceptance of the manufacturer's standard configuration, materials, or equipment, except as they specifically meet or can be made to conform to the requirements defined in this specific action. Any bid shall be assumed to include any and all costs to change, modify or otherwise comply fully with the requirements of this specification. Claims for additional compensation to comply with these specifications after bid for any reason whatsoever will not be considered. Only materials, equipment, or systems that absolutely comply with these specifications in all regards will be accepted. Any substitute systems from alternate manufacturers shall be in compliance with all requirements of these specifications.

C. Warranty: The PVC Membrane System shall be guaranteed for workmanship, materials and performance for a period of 15 years. This warranty shall not include or cover abusive or improper treatment to the PVC Membrane System by others either during construction or when operational.

D. A sample copy of the warranty statement in accordance with these specifications must be provided before approval.

1.11 Delivery, Storage and Handling

A. The PVC Membrane System components shall be delivered to the job site adequately packaged to prevent damage. Unloading and storage shall be executed by the contractor. The materials shall not be stacked or stored in any manner that could cause damage or deformity. Site assembly or fabrication of any part of the PVC Membrane System without the complete coordination and supervision of the manufacturer or his representative is strictly prohibited.

1.12 Project Site Conditions

A. The project site shall be in accordance with the manufacturer's technical bulletins. Access for the installation of the PVC Membrane System will be provided by others.

B. All surface preparation necessary to produce a reasonably smooth, firm, clean and dry surface shall be completed before beginning the installation. The surface must be free of angular materials, bubbles, voids, and large cracks. These irregularities shall be filled with suitable patching material. Tar, oil, or petrochemical compounds must be removed or isolated. Surface preparation is part of this contract.

1.13 Coordination

A. The manufacturer shall provide complete descriptive information detailing the design, construction and installation. The contractor shall include all costs for visits to the project site to coordinate various aspects of design, construction, installation and commissioning of the lining system. Coordination shall include the cost for aspects of the installation and to coordinate manufacturing, testing, and commissioning programs with the main contractor(s), and other suppliers. Such visits shall take place immediately upon notice to proceed to enable all contractors to be briefed, and a complete production and installation program to be established.

PRODUCTS, Part 2

2.1 Manufacturer

A. Manufacturer: Elbtal Plastics GmbH and Co KG. of Dresden, Germany, distributed in the U.S. through its subsidiary ELBTAL USA, Inc of Salisbury, NC, under the registered trade mark poolFORCE®. All bids shall include only PVC Membrane Lining Systems from this manufacturer.

B. The system specified is based upon either the poolFORCE® 60 MIL Swimming Pool Membrane System which is a proprietary product of this manufacturer. The characteristics, standards and criteria listed herein have been established as the minimum acceptable values for any membrane product to be offered on this project. As all aspects and equipment within the pool system have been designed to use this system, products not approved and listed prior to bidding as meeting the minimum requirements listed will not be accepted, as that could adversely affect the performance of the system.

C. If alternate systems are approved prior to bidding, all bidders will be notified by addendum.

D. Source Limitations: Provide all PVC Membrane System components through one source from a single manufacturer.

2.2. Materials

A. Ensure that all materials used are compatible with the swimming pool environment, and that these materials are supplied as a system.

2.3 Components and Equipment

A. Flexible Reinforced PVC Membrane: The flexible PVC membrane shall be installed to the dimensions detailed on the drawings and as required. The membrane shall consist of 2 flexible sheets made of plasticized polyvinyl chloride (PVC-P) joined together with an inner polyester fabric. The membrane shall be no less than 60.0 mil in thickness (.060-inch/1.5 mm), and shall conform strictly with the following chemical and physical properties as listed herein. Only those membranes specifically formulated for swimming pool use shall be considered. Roofing membranes, general waterproofing membranes, and vinyl liners shall not be acceptable. Additionally, only those swimming pool membranes meeting or exceeding the following ASTM test values, substantiated by independent documentation from a certified testing laboratory, shall be acceptable. The membrane shall be furnished in a color scheme as detailed by the drawings or in a standard color as selected by the owner.

B. *Chemical and Physical Properties:

- 1 Thickness 60 MIL (1,50 mm) ASTM D 374 C
- 2 Density 1,12 g/cm³ ASTM D 792 Method A
- 3 Dimensional stability MD ≤ 0,22%, TD ≤ 0,10% ASTM D 1204 exposure 212 o F for 1 hour
- 4 Tensile Strength MD ≥ 165 ppi, TD ≥ 156 ppi ASTM D 751
- 5 Elongation at Break MD ≥ 21%, TD ≥ 28% ASTM D 751
- 6 Puncture Resistance 134 lbs ASTM D 4833
- 7 Low temperature Brittleness 100% pass MD and TD ASTM D 2136 (-58 o F)
- 8 Water Absorption ≤ 0.40% ASTM D 570

9 Chlorine resistance Perfect behavior ASTM D 543, Procedure 1, 7 days at 73.4 o F

10 Fungi Resistance (5 types of fungi) No growth of fungi on the surface of the material ASTM G21-13

*Average values plus or minus 10% / MD Machine Direction / TD Transverse Direction

C. Slip Resistant Flexible Reinforced PVC Membrane: A slip resistant reinforced PVC membrane, 78.0 mil in thickness (.078-inch/2 mm) and identical in chemical and physical properties to the flexible reinforced PVC membrane described above, which includes a specifically designed embossed surface suitable for high traffic areas, shall be installed as detailed on the drawings. Furnish the color scheme as detailed by the drawings or as selected by the owner.

D. Separator Fleece: An engineered polyester fleece separator, weighing at least 10 ounces per square yard, shall be used to cover the interior surfaces of the swimming pool. The fleece separator must be resistant to freeze, thaw, moisture, soil-chemical abrasion, or ultraviolet deterioration.

E. Coated PVC Steel Edging: A PVC-coated steel sheet, with PVC laminated on one side, shall be used to form edges, angles, corners, or other transitions where a firm surface is necessary to weld the PVC membrane.

F. Sanitizing Agents: Sanitizing agents, formulated from a mixture of halogenated organic compounds, and specifically designed for this purpose, shall be applied to the pool surface, beneath the pool liner, to prevent the growth of microbes or fungus.

1. Edge Sealant: Liquid PVC edge sealant solution shall be applied to all free material edges after welding. This process is to provide a properly detailed edge on material lap joints.

EXECUTION, Part 3

3.1 Examination

A. The supervising representative or installer shall verify that the site conditions are in accordance with the manufacturers' requirements, shop drawings and/or technical bulletins and are suitable for the installation of the membrane.

3.2 Preparation

A. Surface preparation shall be completed before installation begins. The surface shall be reasonably smooth without oil or tar-based materials present. Deteriorated surfaces or voids shall be filled with cementitious patching compounds. The fittings should be vinyl-PVC compatible; if not, they should be removed and new ones that are vinyl-PVC compatible should be installed.

3.3 Installation and Application

A. All work shall be performed by skilled technicians having adequate experience with, and specific training in, the field of welding and fabrication of flexible PVC swimming pool membrane systems. The installing crew shall be supervised by a crew leader having had no less than 2 years of experience in the application of PVC membrane systems or at least 5 pool projects similar in size and scope of the project, to ensure the overall integrity of the installation.

B. All membrane system installation personnel shall be a factory-trained licensee of the manufacturer, to ensure the integrity of the membrane installation and to secure a single source of responsibility for any required warranty service. No sub-contractor or independent membrane installers shall be used without prior approval. The contractor shall be required to submit installers experienced with any proposed alternate systems in writing to the consultant for approval prior to project bid.

C. If requested, the Contractor shall submit the personnel and supervisor's experience in writing to the Manufacturer for approval prior to award of contract.

D. All work shall be performed in accordance with the manufacturer's technical bulletins. Should the requirements of these bulletins contradict this or any other section of the specifications, the procedures called for in the bulletins shall govern.

E. One method of meeting these requirements is furnished by poolFORCE® and is available under license for use by any contractor installing a PVC Membrane System in a swimming pool facility.

1. (Optional) To ensure that the hydraulic and gutter system is watertight, the PVC membrane contractor is responsible for pressure testing the existing stainless steel gutter supply tube and hydrostatic testing of the return trough before installing the 60 MIL reinforced PVC membrane lining system.

3.4 Sequence of Work

A. Attach the fleece to the pool wall and/or bottom with the appropriate adhesives in the amounts adequate to secure the fleece. Isolate deteriorated surfaces of voids, cracks, or any other areas with moisture-proof composition board.

B. As required for the configuration of the pool, the flexible reinforced PVC membrane shall be securely welded to coated PVC steel, which has been attached to the pool surface with appropriate stainless steel anchors approximately 4 inches (100 mm) on center.

C. Install PVC coated steel or shaped galvanized sheet as necessary to form angles, edges, corners, or other transitions.

D. Weld the flexible reinforced PVC membrane in accordance with the procedures established by the manufacturer. The joints shall be hot air welded with a minimum of 2 inches of overlap. Probe all seams with a hand-held lance or air lance to ensure complete welding. Completely close the seam edge using a PVC edge sealing compound.

E. All seams in the membrane shall be one-piece, single overlap seams. Patching and overlaying of multiple layers of the membrane material is not acceptable. All materials sections are to be applied in full roll widths and lengths except where pool conditions dictate otherwise. No scrap or short-roll material is to be used in the membrane installation. To minimize visible seams, the membrane is to be applied to the pool walls in horizontally oriented sheets. Applying the membrane to the pool walls in vertically oriented sheets is not acceptable. Any areas of the membrane that are damaged during installation are to be completely removed and replaced with new material. No visible patches on the completed membrane are acceptable.

F. Apply special markings, targets, lines, etc. as indicated on the drawings or as specified. The owner's representative is to provide detailed instruction as to necessary markings.

G. After installation of the PVC membrane, apply an appropriate elastomeric sealant to all transitions between construction materials, using only sealants suitable for submerged application, and compatible with the flexible reinforced PVC membrane.

H. All inlets, outlets, drains, underwater lights, skimmers, and other required membrane penetrations shall be vinyl PVC compatible. The "wrapping and clamping" of the membrane material around stanchion posts, ladder rails, and other protrusions through the membrane will not be considered acceptable.

1. The PVC membrane shall be continuous throughout recessed steps and any other recessed areas in the pool wall.

3.5 Adjusting & Cleaning

A. After installation is complete, "broom" clean all surfaces. Remove all scraps, debris, or construction material and dispose of properly.

3.6 Field Quality Control

A. Limit access to the project site to minimize the possibility of damage to the membrane. Materials and equipment shall not be dragged across the surface of the liner or allowed to slide down the slopes. All parties working on the liner shall wear soft-soled shoes. Immediately following installation, verify completion and testing of all seams. Retesting may be necessary to ensure complete sealing.

B. Upon completion of installation and testing, the completed PVC Membrane System shall be hydrostatically tested by filling the pool or water feature to the typical operating level and operating all systems for a period of 6 hours without evidence of leakage.

3.7 Demonstration and Commissioning

A. Provide at least three full sets of bound operation and maintenance manuals that fully detail the proper system operation and maintenance techniques.

B. In the company of the owner's representative, inspect the completed installation, make final adjustments, place the system in operation and give operating instructions relative to its care and use.

C. A complete "Project Completion Report and Warranty Application," documenting the proper completion of the project, training of owner's personnel, and application for warranty, shall be completed and provided to the owner's representative for review and signature before turning over the project to owner.

Warranty FORM

Elbtal USA, Inc

205 East Council Street, St C

Salisbury, NC 28144

704.637.5363 fax 704.637.5365

Warranty

warrants that the 60 MIL reinforced poolFORCE membrane delivered by us is a swimming pool membrane for which we guarantee the watertightness for a period of fifteen (15) years from the date of purchase under normal wear, exposure and usage.

Elbtal USA, Inc has no control of the installation. The installation must be performed by a certified installer who has participated in and successfully completed the Certification Training Program organized by **Elbtal USA, Inc**. If not, the installer shall be certified competent in installing PVC membranes and have a minimum of two (2) years experience installing PVC membranes for pool applications and must demonstrate a minimum of fifteen (15) pools installed.

The installer has to make sure that the membrane is being installed according to the Installation manual of **Elbtal USA, Inc** in a suitable shell without defective foundations and mechanical breakdowns. The shell must be free of rough spots (rust gravel or any type of abrasive surfaces) to which the membrane will come in contact.

Elbtal USA, Inc has no control of the maintenance of the pool. Once the membrane has been installed the water should be balanced to the recommended levels immediately. A guide of Care Instructions for the correct maintenance is enclosed with this warranty. The certified installer must guarantee he has explained to the pool owner or operator these Care Instructions. It is up to the pool owner or operator to ensure that the water is properly balanced at all times. Our warranty does not cover damage to the membrane caused by the non respect of our Care Instructions (in particular the water chemical balance and the temperature of the water), which can and will cause severe damage to the membrane.

A membrane failure must be reported in writing directly to **Elbtal USA, Inc** within thirty (30) days after it appeared.

Elbtal USA, Inc reserves the right to replace or repair, at the option of **Elbtal USA, Inc**, the damaged areas in the membrane covered by this warranty. The period of the warranty shall not be extended due to replacement and/or subsequent repair work.

Elbtal USA, Inc also reserves the right to authorize or elect a certified installer to make the necessary repairs in order for the membrane to perform its basic functions.

Any defects in fading, discoloration, staining or changes in physical characteristics are not covered under **Elbtal USA, Inc** warranty.

E Elbtal USA, Inc warranty does not apply to tears, punctures, damage caused by undue abuse, excessive strain, improper installation procedures, improper storage, improper chemical balance, or acts of God such as ice damage or failure caused by exceptional temperature extremes. Decorative color trim printings used on the membrane are excluded from our warranty coverage. We disclaim any liability for the cost of membrane removal and reinstallation or water and chemical replacement. We expressly renounce and disclaim for consequential damages to property of purchaser or any other person. In addition, **Elbtal USA, Inc** will not assume any liability if the pool installation violates local building codes.

This warranty gives you specific rights and you may also have other rights, which may vary from State to State. The warranty registration must be filled in on-line or mailed to **Elbtal USA, Inc** within thirty (30) days of purchase; otherwise **Elbtal USA, Inc** warranty will be invalid. Proof of purchase must be presented with any claim.

Form W-9
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

► Go to www.irs.gov/FormW9 for instructions and the latest information.

Give Form to the
requester. Do not
send to the IRS.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

ZTI, LLC

2 Business name/disregarded entity name, if different from above

ZTI, LLC

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☒ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ► **S**
Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ►

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

3482 NE 12 TERRACE

6 City, state, and ZIP code

OAKLAND PARK FLORIDA 33334

7 List account number(s) here (optional)

Requester's name and address (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

____ - ____ - ____

or

Employer identification number

4 9 - 4 9 1 9 6 6 6

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Date

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
 - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
 - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
 - Form 1099-S (proceeds from real estate transactions)
 - Form 1099-K (merchant card and third party network transactions)
 - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
 - Form 1099-C (canceled debt)
 - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

Same as above

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

BOND AMOUNT: 5% Five Percent of Amount Bid**PROJECT:***(Name, location or address, and Project number, if any)*

Academic Village Swimming Pool Renovation - RE-19-13

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Signed and sealed this 13th day of August, 2019.

THE CINCINNATI INSURANCE COMPANY

Fairfield, Ohio

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That THE CINCINNATI INSURANCE COMPANY, a corporation organized under the laws of the State of Ohio, and having its principal office in the City of Fairfield, Ohio, does hereby constitute and appoint

Christian Collins, Daniel Cardenas, Richard Zimmerman, Dale Belis, Edwin Turner Collins, IV, Joseph Nielson, Ian Nipper, Jessica Reno, Edward Clark, Shawn Burton, Jarrett Merlucci, Emily Golecki, Don Bramlage, Laura Mosholder, Daniel Oaks, Charles Nielson, Kevin Wojtowicz, David Hoover, of Miami Lakes, FL its true and lawful Attorney(s)-in-Fact to sign, execute, seal and deliver on its behalf as Surety, and as its act and deed, any and all bonds, policies, undertakings, or other like instruments, as follows:

Twenty Million Dollars and 00/100 (\$20,000,000.00)

This appointment is made under and by authority of the following resolution passed by the Board of Directors of said Company at a meeting held in the principal office of the Company, a quorum being present and voting, on the 6th day of December, 1958, which resolution is still in effect:

"RESOLVED, that the President or any Vice President be hereby authorized, and empowered to appoint Attorneys-in-Fact of the Company to execute any and all bonds, policies, undertakings, or other like instruments on behalf of the Corporation, and may authorize any officer or any such Attorney-in-Fact to affix the corporate seal; and may with or without cause modify or revoke any such appointment or authority. Any such writings so executed by such Attorneys-in-Fact shall be binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company."

This Power of Attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of the Company at a meeting duly called and held on the 7th day of December, 1973.

"RESOLVED, that the signature of the President or a Vice President and the seal of the Company may be affixed by facsimile on any power of attorney granted, and the signature of the Secretary or Assistant Secretary and the seal of the Company may be affixed by facsimile to any certificate of any such power and any such power of certificate bearing such facsimile signature and seal shall be valid and binding on the Company. Any such power so executed and sealed and certified by certificate so executed and sealed shall, with respect to any bond or undertaking to which it is attached, continue to be valid and binding on the Company."

IN WITNESS WHEREOF, THE CINCINNATI INSURANCE COMPANY has caused these presents to be sealed with its corporate seal, duly attested by its Vice President this 10th day of May, 2012.

STATE OF OHIO) ss:

NON-COLLUSIVE AFFIDAVIT

BIDDER is the **OWNER**,
(Owner, Partner, Officer, Representative or Agent)

BIDDER is fully informed respecting the preparation and contents of the attached Bid and of all pertinent circumstances respecting such Bid;

Such Bid is genuine and is not a collusive or sham Bid;

Neither the said BIDDER nor any of its officers, partners, owners, agents, representative, employees or parties in interest, including this affidavit, have in any way colluded, conspired, connived or agreed, directly or indirectly, with any other BIDDER, firm or person to submit a collusive or sham Bid in connection with the Contract for which the attached Bid has been submitted; or to refrain from bidding in connection with such Contract; or have in any manner, directly or indirectly, sought by agreement or collusion, or communications, or conference with any BIDDER, firm, or person to fix the price or prices in the attached Bid or any other BIDDER, or to fix any overhead, profit, or cost element of the Bid Price or the Bid Price of any other BIDDER, or to secure through any collusion conspiracy, connivance, or unlawful agreement any advantage against (Recipient), or any person interested in the proposed Contract;

The price of items quoted in the attached Bid are fair and proper and are not tainted by collusion, conspiracy, connivance, or unlawful agreement on the part of the BIDDER or any other of its agents, representatives, owners, employees or parties in interest, including this affidavit.

Alternative Option 2: Removal of the 3M diving board and repairs to the 1M diving board

Item #	Item Description	Total Cost
1)	Total for removal of the 3M diving board and repairs to the 1M diving board as specified in the IFB.	Price to be Submitted Via BidSync

Alternative Option 3: Install new stainless steel grate for the “pit” area

Item #	Item Description	Total Cost
1)	Total for the installation of a new stainless steel grate for the “pit” area as specified in the IFB.	Price to be Submitted Via BidSync

Alternative Option 4: Install new shade structures on the pool deck

Item #	Item Description	Total Cost
1)	Total for the installation of new shade structures on the pool deck as specified in the IFB.	Price to be Submitted Via BidSync

Alternative Option 5: Replace all pool gutter grates

Item #	Item Description	Total Cost
1)	Total for the purchase and installation of new pool grates to match the existing pool grates in both material and quality.	Price to be Submitted Via BidSync

Alternative Option 6: Re-bond existing pool and pool components

Item #	Item Description	Total Cost
1)	Total to re-bond the pool and the existing pool components per current applicable laws, rules and codes. This amount shall not include the work to bond any new components or equipment as specified in the scope of work.	Price to be Submitted Via BidSync

Alternative Option 7: Repair leak in one (1) floor return

Item #	Item Description	Total Cost
1)	Total unit cost to repair one additional floor return per the scope of work specified in the IFB.	Price to be Submitted Via BidSync

Alternative Option 8: Clean underground original storm drainage system from the three (3) pool deck inlets to structures S-G3 and S-G6 per Attachment L (Sheet 208A grading and drainage plan circa 03-10-2000)

Item #	Item Description	Total Cost
1)	Total cost to clean the underground original storm drainage system.	Price to be Submitted Via BidSync

Alternative Option 9: Cost to remove and replace concrete pavers with new. This alternate would replace line 20 in the Schedule of Values

Item #	Item Description	Total Cost
1)	Total cost to remove and replace concrete pavers with new.	Price to be Submitted Via BidSync

VENDOR DRUG-FREE WORKPLACE CERTIFICATION FORM

SECTION 1 GENERAL TERM

Preference may be given to vendors submitting a certification with their bid/proposal certifying they have a drug-free workplace in accordance with Section 287.087, Florida Statutes. This requirement affects all public entities of the State and becomes effective January 1, 1991. The special condition is as follows:

IDENTICAL TIE BIDS - Preference may be given to businesses with drug-free workplace programs. Whenever two or more bids that are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drugfree workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after each conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

SECTION 2 AFFIRMATION

☒ Place a check mark here only if affirming bidder **complies fully** with the above requirements for a Drug-Free Workplace.

☐ Place a check mark here only if affirming bidder **does not** meet the requirements for a Drug-Free Workplace.

Failure to complete this certification at this time (by checking either of the boxes above) shall render the vendor ineligible for Drug-Free Workplace Preference. This form must be completed by/for the proposer; the proposer WILL NOT qualify for Drug-Free Workplace Preference based on their sub-contractors' qualifications.

EQUAL BENEFITS CERTIFICATION FORM FOR DOMESTIC PARTNERS AND ALL MARRIED COUPLES

Except where federal or state law mandates to the contrary, a Contractor awarded a Contract pursuant to a competitive solicitation shall provide benefits to Domestic Partners and spouses of its employees, irrespective of gender, on the same basis as it provides benefits to employees' spouses in traditional marriages.

The Contractor shall provide the City and/or the City Manager or his/her designee, access to its records for the purpose of audits and/or investigations to ascertain compliance with the provisions of this section, and upon request shall provide evidence that the Contractor is in compliance with the provisions of this section upon each new bid, contract renewal, or when the City Manager has received a complaint or has reason to believe the Contractor may not be in compliance with the provisions of this section. Records shall include but not be limited to providing the City and/or the City Manager or his/her designee with certified copies of the Contractor's records pertaining to its benefits policies and its employment policies and practices.

The Contractor must conspicuously make available to all employees and applicants for employment the following statement:

"During the performance of a contract with the City of Pembroke Pines, Florida, the Contractor will provide Equal Benefits to its employees with spouses, as defined by Section 35.39 of the City's Code of Ordinances, and its employees with Domestic Partners and all Married Couples".

The posted statement must also include a City contact telephone number and email address which will be provided to each contractor when a covered contract is executed.

SECTION 1 DEFINITIONS

1. **Benefits** means the following plan, program or policy provided or offered by a contractor to its employees as part of the employer's total compensation package which may include but is not limited to sick leave, bereavement leave, family medical leave, and health benefits.
2. **Cash Equivalent** mean the amount of money paid to an employee with a domestic partner or spouse in lieu of providing benefits to the employee's domestic partner or spouse. The cash equivalent is equal to the employer's direct expense of providing benefits to an employee for his or her spouse from a traditional marriage.
3. **Covered Contract** means a contract between the City and a contractor awarded subsequent to the date when this section becomes effective valued at over \$25,000 or the threshold amount required for competitive bids as required in section 35.18(A) of the Procurement Code.
4. **Domestic Partner** shall mean any two (2) adults of the same or different sex who have registered as domestic partners with a governmental body pursuant to state or local law authorizing such registration, or with an internal registry maintained by the employer of at

least one of the domestic partners. A contractor may institute an internal registry to allow for the provision of equal benefits to employees with domestic partners who do not register their partnerships pursuant to a governmental body authorizing such registration, or who are located in a jurisdiction where no such governmental domestic partnership registry exists. A contractor that institutes such registry shall not impose criteria for registration that are more stringent than those required for domestic partnership registration by the City of Pembroke Pines.

5. **Equal benefits** means the equality of benefits between employees with spouses and/or dependents of spouses and employees with domestic partners and/or dependents of domestic partners, and/or between spouses of employees and/or dependents of spouses and domestic partners of employees and/or dependents of domestic partners.
6. **Spouse** means one member of a married pair legally married under the laws of any state within the United States of America or any other jurisdiction under which such marriage is legally recognized, irrespective of gender.
7. **Traditional marriage** means a marriage between one man and one woman.

SECTION 2 CERTIFICATION OF CONTRACTOR

The firm providing a response, by virtue of the signature below, certifies that it is aware of the requirements of Section 35.39 "City Contractors providing Equal Benefits for Domestic Partners and all Married Couples" of the City's Code of Ordinances, and certifies the following (**Check only one box below**):

- ☐ A. Contractor currently complies with the requirements of this section; or
- ☐ B. Contractor will comply with the conditions of this section at the time of contract award; or
- ☐ C. Contractor will not comply with the conditions of this section at the time of contract award: or
- ☒ D. Contractor does not comply with the conditions of this section because of the following allowable exemption (**Check only one box below**):
- ☒ 1. The Contractor does not provide benefits to employees' spouses in traditional marriages;
- ☐ 2. The Contractor provides an employee the cash equivalent of benefits because the Contractor is unable to provide benefits to employees' Domestic Partners or spouses despite making reasonable efforts to provide them. To meet this exception, the Contractor shall provide a notarized affidavit that it has made reasonable efforts to provide such benefits. The affidavit shall state the efforts taken to provide such benefits and the amount of the cash equivalent. Cash equivalent means the amount of money paid to an employee with a Domestic Partner or spouse rather than providing benefits to the employee's Domestic Partner or spouse. The cash equivalent is equal to the employer's direct expense of providing benefits to an employee's spouse;

City of Pembroke Pines

- ☐ 3. The Contractor is a religious organization, association, society, or any non-profit charitable or educational institution or organization operated supervised or controlled by or in conjunction with a religious organization, association, or society;
- ☐ 4. The Contractor is a governmental agency;

The certification shall be signed by an authorized officer of the Contractor. Failure to provide such certification (by checking the appropriate boxes above along with completing the information below) shall result in a Contractor being deemed non-responsive.

2. Is not on the Scrutinized Companies that Boycott Israel list; and
3. Is not on the Scrutinized Companies with Activities in Sudan List; and
4. Is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; and
5. Has not engaged in business operations in Syria.

Submitting a false certification shall be deemed a material breach of contract. The City shall provide notice, in writing, to the Contractor of the City's determination concerning the false certification. The Contractor shall have ninety (90) days following receipt of the notice to respond in writing and demonstrate that the determination of false certification was made in error. If the Contractor does not demonstrate that the City's determination of false certification was made in error then the City shall have the right to terminate the contract and seek civil remedies pursuant to Florida Statute § 287.135.

Section 287.135, Florida Statutes, prohibits the City from: 1) Contracting with companies for goods or services in any amount if at the time of bidding on, submitting a proposal for, or entering into or renewing a contract if the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, F.S. or is engaged in a boycott of Israel; and 2) Contracting with companies, for goods or services over \$1,000,000.00 that are on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector list, created pursuant to s. 215.473, or are engaged in business operations in Syria.

As the person authorized to sign on behalf of the Contractor, I hereby certify that the company identified above in the section entitled "Contractor Name" does not participate in any boycott of Israel, is not listed on the Scrutinized Companies that Boycott Israel List, is not listed on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector List, and is not engaged in business operations in Syria. I understand that pursuant to section 287.135, Florida Statutes, the submission of a false certification may subject the company to civil penalties, attorney's fees, and/or costs. I further understand that any contract with the City for goods or services may be terminated at the option of the City if the company is found to have submitted a false certification or has been placed on the Scrutinized Companies with Activities in Sudan list or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.

**SWORN STATEMENT ON PUBLIC ENTITY CRIMES
UNDER FLORIDA STATUTES CHAPTER 287.133(3)(a).**

1. This sworn statement is submitted ZTI, LLC
(name of entity submitting sworn statement)
whose business address is 3482 NE 12 TERRACE OAKLAND PARK FL 33334
and (if applicable) its Federal Employer Identification Number (FEIN) is
45-4919666. (If the entity has no FEIN, include the Social Security
Number of the individual signing this sworn statement: N/A.)
2. My name is TORI J TANNER and my
(Please print name of individual signing)
relationship to the entity named above is OWNER.
3. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
4. I understand that a "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.
5. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:
 1. A predecessor or successor of a person convicted of a public entity crime: or
 2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The Cityship by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a

joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

6. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or any entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts let by a public entity, or which otherwise transacts or applies to transact business with a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.
7. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **(Please indicate which statement applies.)**
- ☒ A) Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.
- ☐ B) The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND **(Please indicate which additional statement applies.)**
- ☐ B1) There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. **(Please attach a copy of the final order.)**
- ☐ B2) The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. **(Please attach a copy of the final order.)**
- ☐ B3) The person or affiliate has not been placed on the convicted vendor list. **(Please describe any action taken by or pending with the Department of General Services.)**
