ZV 2019-09	155.248(B)(1)	9' x 19' Parking Space	9' x 18' Existing Parking Spaces
ZV 2019-10	154.35(A)(5)	24.0' Wide Drive Lane	16.3' Wide Drive Lane
ZV 2019-11	153.14	Landscaping Buffer Adjacent to Abutting Properties	No Landscape Buffer Adjacent to Northern Abutting Property
Final:	☒ Planning & Zoning Board		☐ Board of Adjustments
Reviewed for the Agenda:	Director: <u></u> Zoning Administrator: <u></u>		

Project Description / Background

Tod Workman, as agent for owner, has submitted three (3) variance requests for existing conditions at the Weekly Asphalt Plant located at 20701 Stirling Road:

To allow 9' x 18' existing parking spaces instead of the required 9' x 19' parking spaces; to allow 16.3' wide existing drive lane instead of required 24.0' wide drive lane and to allow no landscape buffer along northern property line instead of required landscape buffer abutting all adjacent properties.

These variances, along with proposed Site Plan #SP 2018-09 (to be reviewed by the Planning & Zoning Board at a future P & Z Board meeting) are to bring into compliance a number of structures and improvements made on this property over the years.

VARIANCE REQUEST DETAILS:

ZV 2019-09) Allow 9' x 18' existing parking spaces instead of the required 9' x 19' parking spaces.

Code Reference: §155.248 PARKING SPACE DIMENSIONS.

(B) Standard parking spaces must adhere to one of the following consistent with the city's engineering standard which may be amended from time to time (as maintained by the City Engineer): (1) Outparcel buildings and free standing buildings of over 3,000 square feet of gross floor area may be permitted a maximum of three short-term parking spaces.

(1) Nine by 19 feet, including a wheel stop which is placed three feet from the curb or edge of pavement;

ZV 2019-10) Allow 16.3' wide existing drive lane instead of required 24.0' wide drive lane.

Code Reference: §154.35 DESIGN STANDARDS FOR PARKING AREAS

(A) Parking lots for industrial, commercial and recreational, subdivisions and for residential subdivisions with multi-family units or single-family attached units shall be constructed in accordance with the following criteria: Nine by 19 feet, including a wheel stop which is placed three feet from the curb or edge of pavement;

- (5) Driving lanes. Driving lanes shall have a minimum clear width of 24 feet for two-way traffic and parking spaces at 90 degree angles, 15 feet for one-way traffic and parking spaces at 30 and 45 degree angles and 12 feet for drive-thru/drop-off traffic. When parking spaces are provided at 60 degrees angle, the one-way driving lane shall be minimum 18 feet clear. A 24 inches wide white stop bar, along with 25 feet of double yellow lines, shall be provided at the end of each driving lane.

ZV 2019-11) Allow no landscape buffer along northern property line instead of required landscape buffer abutting all adjacent properties.

Code Reference: §153.14 LANDSCAPING ADJACENT TO ABUTTING PROPERTIES - ALL PROPERTIES.

- (A) On the site of a building, structure, or open-lot use providing an off-street parking area or other vehicular use area, where the area will not be entirely screened visually by an intervening building or structure from abutting property, screening shall be required as provided within this section.
- (B) The buffer screening shall comply with the yard requirements as provided in Chapter 155 for all applicable districts and land use separation requirements if applicable in § 155.056.
- (C) Walls, hedges, or other durable landscape barriers at least three feet in height, with appropriate spacing as provided in the SFWMD Guide, shall be accepted as screening material if that material can provide the required full screening from the abutting property.
- (D) In addition, trees and landscape beds shall be located between the common lot line and the off-street parking area or other vehicular use area. The required number of trees shall be calculated as one tree provided for every 50 lineal feet or fractional part thereof. Each tree shall be planted in at least a 100 square feet planting area consisting of grass, groundcover, or other landscape material with a minimal dimension of at least ten feet. Non-living durable landscape material shall not be acceptable material for these landscape beds. (Ord. 1808, passed 2-4-15)

VARIANCE DETERMINATION

The Planning and Zoning Board shall not grant any non-single-family variances, permits, or make any decision, finding, and determination unless it first determines that:

1. Its decision and action taken is in harmony with the general purposes of the zoning ordinances of the city and is not contrary to the public interest, health, or welfare, taking into account the character and use of adjoining buildings and those in the vicinity, the number of persons residing or working in the buildings, and traffic conditions in the vicinity.
2. In the granting of variances, the Planning and Zoning Board shall determine that the variance granted is the minimum variance that will accomplish the intended purpose (stated above) and:
 - A) That there are special circumstances or conditions applying to the land or building for which the variance is sought, which circumstances are peculiar to the land or building and do not apply generally to land or buildings in the neighborhood, and that the strict application of the provisions of the zoning ordinances would result in an unnecessary hardship and deprive the applicant of the reasonable use of the land or building; or
 - B) That any alleged hardship is not self-created by any person having an interest in the property nor is the result of a mere disregard for or in ignorance of the provisions of the zoning ordinances of the city; or
 - C) That granting the variance is not incompatible with public policy, will not adversely affect any adjacent property owners, and that the circumstances which cause the special conditions are peculiar to the subject property.

SECTION 5 - LAND USE PLAN AMENDMENT APPLICATION ONLY

☐ City Amendment Only

☐ City and County Amendment

Existing City Land Use: _____

Requested City Land Use: _____

Existing County Land Use: _____

Requested County Land Use: _____

Code Section: 155.248 PARKING SPACE DIMENSIONS.

(B) Standard parking spaces must adhere to one of the following consistent with the city's engineering standard which may be amended from time to time (as maintained by the City Engineer):

(1) Nine by 19 feet, including a wheel stop which is placed three feet from the curb or edge of pavement; or

Request: Permitting of existing minimum nine by 18 feet parking space dimension, in lieu of nine by 19 feet, per the attached marked-up survey.

Details of Variance:

The existing nine by 18 feet parking space dimension was utilized in accordance with all governing standards at the time of permitting, construction and issuance of a Certificate of Occupancy in 2004.

The public health, safety, morals, convenience, comfort, amenities, prosperity, and general welfare of the community has not been diminished directly due to the existing nine by 18 feet parking space dimension, at the Weekley Asphalt Paving Plant and Office since 2004.

[illegible]

Weekley Asphalt Paving Plant and Office

Section 4 – VARIANCE APPEAL

Related Applications: SP 2018-09 / PRJ 2018-13

Code Section: 154.35 DESIGN STANDARDS FOR PARKING AREAS.

(A) Parking lots for industrial, commercial and recreational, subdivisions and for residential subdivisions with multi-family units or single-family attached units shall be constructed in accordance with the following criteria:

(5) Driving lanes. Driving lanes shall have a minimum clear width of 24 feet for two-way traffic and parking spaces at 90 degree angles, 15 feet for one-way traffic and parking spaces at 30 and 45 degree angles and 12 feet for drive-thru/drop-off traffic. When parking spaces are provided at 60 degrees angle, the one-way driving lane shall be minimum 18 feet clear. A 24 inches wide white stop bar, along with 25 feet of double yellow lines, shall be provided at the end of each driving lane.

Request: Permitting of existing minimum clear width of 16.3' parking lot driving lane for two-way traffic and parking spaces at 90-degree angles in the employee-only parking area, per the attached marked-up surveys.

Details of Variance:

Existing minimum clear width of 16.3' parking lot driving lane in employee-only parking area has functioned safely since the time of permitting, construction and issuance of a Certificate of Occupancy in 2004.

The public health, safety, morals, convenience, comfort, amenities, prosperity, and general welfare of the community has not been diminished directly due to the minimum clear width of 16.3' driving lane in the employee-only parking area at the Weekley Asphalt Paving Plant and Office since 2004.

Weekley Asphalt Paving Plant and Office

Section 4 – VARIANCE APPEAL

Related Applications: SP 2018-09 / PRJ 2018-13

Code Section: 153.14 LANDSCAPING ADJACENT TO ABUTTING PROPERTIES - ALL PROPERTIES.

(A) On the site of a building, structure, or open-lot use providing an off-street parking area or other vehicular use area, where the area will not be entirely screened visually by an intervening building or structure from abutting property, screening shall be required as provided within this section.

(B) The buffer screening shall comply with the yard requirements as provided in Chapter 155 for all applicable districts and land use separation requirements if applicable in § 155.056.

(C) Walls, hedges, or other durable landscape barriers at least three feet in height, with appropriate spacing as provided in the SFWMD Guide, shall be accepted as screening material if that material can provide the required full screening from the abutting property.

(D) In addition, trees and landscape beds shall be located between the common lot line and the off-street parking area or other vehicular use area. The required number of trees shall be calculated as one tree provided for every 50 lineal feet or fractional part thereof. Each tree shall be planted in at least a 100 square feet planting area consisting of grass, groundcover, or other landscape material with a minimal dimension of at least ten feet. Non-living durable landscape material shall not be acceptable material for these landscape beds. (Ord. 1808, passed 2-4-15)

Required: North Property Line Perimeter Landscaping Buffer

Request: Deletion of North Property Line Landscaping Buffer Requirement

Details of Variance:

Weekley Asphalt Paving owns the parcel immediately adjacent to the North Property Line, which is in the Town of Southwest Ranches.

Since this adjacent parcel is also part of the asphalt plant, per the attached highlighted aerial, “full screening from the abutting property,” or screening provided by the North Property Line Landscaping Buffer, bisecting the asphalt plant operations, is not achievable.

Weekley Asphalt Paving has provided additional trees, groundcover, or other landscape material in other areas of the site, in sufficient quantity to offset the material that would have been used at the North Property Line Landscaping Buffer.

GENERAL NOTES AND SPECIFICATIONS

- CONTRACTOR TO VISIT SITE AND REVIEW PLANS PRIOR TO SUBMITTING A PROPOSAL TO OWNER. CONTRACTOR SHALL VERIFY SITE AND TREE INFORMATION, AND BRING ANY DISCREPANCIES WITHIN THE PLANS TO THE ATTENTION OF THE LANDSCAPE ARCHITECT FOR CLARIFICATION PRIOR TO SUBMITTING A PROPOSAL.
- THESE PLANS WERE PREPARED BASED ON THE BEST INFORMATION AVAILABLE AT THE TIME OF DESIGN AND ON A RECENT SURVEY BY A FLORIDA REGISTERED SURVEYOR/MAPPER. ALL FINAL PLANS SHALL BE COORDINATED WITH FINAL APPROVED SITE PLAN.
- CONTRACTOR TO VERIFY ALL UNDERGROUND UTILITIES BEFORE WORK COMMENCES AND SHALL PROTECT ALL UNDERGROUND/ABOVE GROUND UTILITIES AND EXISTING CONDITIONS TO REMAIN DURING CONSTRUCTION.
- THIS PLAN WAS PREPARED BASED ON EXISTING TREE AND LANDSCAPE CONDITIONS, AND WITH THE UNDERSTANDING THAT THE OWNER OR OWNERS REPRESENTATIVE WILL SEEK VARIANCES FOR ANY REQUIRED LANDSCAPING NOT SHOWN ON THIS PLAN AND NOT INSTALLED ON THE SITE. FAILURE TO DO SO WILL VOID THE PLAN ON THIS PLAN.
- LANDSCAPE ARCHITECT RESERVES THE RIGHT TO MAKE CHANGES IN MATERIAL, QUANTITIES AND PROJECT SCOPE TO CONTRACTED WORK.
- IN THE EVENT OF DISPUTE, THE LANDSCAPE ARCHITECT'S INTERPRETATION SHALL BE FINAL.
- ALL WORK TO BE IN ACCORDANCE WITH ALL APPLICABLE REGULATIONS AND ALL MATERIALS TO MEET MINIMUM CODE REQUIREMENTS EXCEPT THOSE QUANTITIES OR SPECIES THAT MAY RECEIVE A VARIANCE FOR THE OWNER/PROPERTY FROM THE REGULATING AUTHORITY(IES).
- CONTRACTOR TO LEAVE SITE COMPLETELY CLEAN, RESTORED, AND FREE OF DEBRIS, AND REPAIR IN FULL ANY DAMAGE CAUSED BY WORK OR MOBILIZATION.
- FOR ALL TREES TO BE REMOVED, CONTRACTOR TO TAKE PROPER CARE IN REMOVAL TO NOT CAUSE DAMAGE TO EXISTING SITE FEATURES, CONDITIONS, INFRASTRUCTURE, OR THE GENERAL PUBLIC AND PASSENGERS.
- NO TREES SHALL BE REMOVED UNLESS A VALID TREE REMOVAL PERMIT IS OBTAINED BY THE REGULATING AUTHORITY. OTHER THAN NON-EXEMPT SPECIES LISTED BY THE REGULATING AUTHORITY NO TREE REMOVAL SHALL OCCUR.
- ALL TREES TO REMAIN SHALL BE PROTECTED IN PLACE BY A TREE PROTECTION BARRIER FENCE ERECTED TO THE EXTENTS OF THE CANOPY DRUPLINES. SEE LANDSCAPE DETAILS SHEET FOR ADDITIONAL INFORMATION ON REQUIRED TREE PROTECTION BARRIERS. FAILURE TO MAINTAIN THE BARRIERS MAY RESULT IN DAMAGE TO EXISTING TREES TO REMAIN, ESPECIALLY ONES CLOSE TO ACTIVE CONSTRUCTION, WHICH IN TURN MAY RESULT IN TREE MITIGATION COSTS, ADDITIONAL PERMITTING TIME, AND COSTS, OR REJECTION OF WORK AT TIME OF FINAL INSPECTION. TREE PROTECTION BARRIERS ARE TO REMAIN IN PLACE TO THE EXTENTS OF THE TREE DRUPLINES FOR THE ENTIRE DURATION OF CONSTRUCTION.
- CONTRACTOR TO COMPLETELY REMOVE ALL PROHIBITED INVASIVE-EXOTIC SPECIES OF VEGETATION WITHIN SITE. THIS INCLUDES COMPLETE REMOVAL OF ENTIRE ROOT SYSTEMS AND DEBRIS. FOR A LIST OF INVASIVE SPECIES REQUIRED TO BE REMOVED FROM SITE SEE FLORIDA EXOTIC PEST PLANT COUNCIL LATEST LIST OF CATEGORY I INVASIVE SPECIES AT <http://www.flapsc.org>
- ALL PERVIOUS LANDSCAPED AREAS TO HAVE AN AUTOMATIC, PROGRAMMABLE UNDERGROUND IRRIGATION SYSTEM WITH A MAIN SENSOR IN ACCORDANCE WITH LOCAL, REGIONAL, AND STATE REGULATIONS INCLUDING SFWMD, BROWARD COUNTY, AND MUNICIPAL AUTHORITY.
- FOR ALL TREES WITH REPLACE IN THE TREE DISPOSITION CHART, REMOVE EXISTING AND REPLACE WITH NEW 2" DBH/14' HT. LIVE OAK. SEE PLANT LIST FOR DETAILS AND COMPLETELY REMOVE AND GRIND ROOT SYSTEM AND TRUNK AND PROPERLY DISPOSE OF OFF SITE.
