ARTICLE 13 DEFAULT OF CONTRACT & REMEDIES

13.1 Liquidated Damages.

~~As a breach of the service provided by this Agreement would cause serious and substantial damage to the CITY Property, and the nature of this Agreement would render it impracticable or extremely difficult to fix the actual damage sustained by the CITY by such breach, it is agreed that, in case of breach of service wherein CONTRACTOR fails to maintain the Property, leaving the said property in disrepair, the CITY may elect to collect liquidated damages for each such breach, and the Contractor will pay the CITY as liquidated damages, and not as penalty, five (\$500.00) hundred dollars for every day of such malfunction. This sum is the agreed upon amount by which the CITY will be damaged by the breach of such service. An election to seek such remedies shall not be construed as a waiver of any legal remedies the CITY may have as to any subsequent breach of service under its Agreement.~~

13.2 Default of Contract. The occurrence of any one or more of the following events shall constitute a default and breach of this Agreement by CONTRACTOR:

13.2.1. The abandonment of the Property by CONTRACTOR for a period of more than seven (7) business days.

13.2.2 The abandonment, unnecessary delay, refusal of, or failure to comply with any of the terms of this Agreement or neglect, or refusal to comply with the instructions of the Public Services Director relative thereto.

13.2.3. The failure by CONTRACTOR to observe or perform any of the terms, covenants, or conditions of this Agreement to be observed or performed by CONTRACTOR, where such failure shall continue for a period of seven (7) days after written notice thereof by CITY to CONTRACTOR; provided, however, that if the nature of CONTRACTOR's default is such that more than seven (7) days are reasonably required for its cure, then CONTRACTOR shall not be deemed to be in default if CONTRACTOR commences such cure within said seven (7) day period and thereafter diligently prosecutes such cure to completion.

13.2.4. The assignment and/or transfer of this Agreement or execution or attachment thereon by CONTRACTOR or any other party in a manner not expressly permitted hereunder.

13.2.5. The making by CONTRACTOR of any general assignment or general arrangement for the benefit of creditors, or the filing by or against CONTRACTOR of a petition to have CONTRACTOR adjudged a bankruptcy, or a petition for reorganization or arrangement under any law relating to bankruptcy (unless, in the case of a petition filed against CONTRACTOR, the same is dismissed within sixty (60) days); or the appointment of a trustee or a receiver to take possession of substantially all of CONTRACTOR's assets, or for CONTRACTOR's interest in this Agreement, where possession is not restored to CONTRACTOR within thirty (30) days; for attachment, execution or other judicial seizure of substantially all of CONTRACTOR's assets, or for CONTRACTOR's interest in this Agreement, where such seizure is not discharged within thirty (30) days.

13.3 Remedies in Default. In case of default by CONTRACTOR, the CITY shall notify the CONTRACTOR, in writing, of such abandonment, delay, refusal, failure, neglect, or default and direct him to comply with all provisions of the Agreement. A copy of such written notice shall be mailed to the Surety on the Performance Bond ("Surety"). If the abandonment, delay, refusal, failure, or neglect is not cured within seven (7) days of when notice was sent by CITY, CITY may declare a default of the Agreement and notify the CONTRACTOR and the Surety of such declaration of default and terminate the Agreement.

The Surety on the Performance Bond shall within ten (10) days of such declaration of default rectify or cause to be rectified any mismanagement or breach of service in the Agreement and assume the work of CONTRACTOR and proceed to perform services under the Agreement, at its own cost and expense.

13.3.1. Upon such declaration of default, all payments remaining due the CONTRACTOR at the time of default, less all sums due the CITY for damages suffered, or expenses incurred by reason of default, shall be due and payable to the Surety. Thereafter the Surety shall receive monthly payments equal to those that would have been paid the CONTRACTOR had the CONTRACTOR continued to perform the services under the Agreement.

13.3.2. If such Surety fails to perform, the CITY may complete the Contract, or any part thereof, either by day labor or re-letting a Contract for the same, and procure the equipment and the facilities necessary for the completion of the Contract, and charge the cost of same to the CONTRACTOR and/or the Surety together with the costs incident thereto to such default.

13.3.3. In the event the CITY completes the Contract at a lesser cost than would have been payable to the CONTRACTOR under this agreement, if the same had been fulfilled by

said CONTRACTOR, CITY shall retain such differences. Should such cost to the CITY be greater, the CONTRACTOR and/or the Surety shall pay the amount of such excess to the CITY.

ARTICLE 14 BANKRUPTCY

It is agreed that if the CONTRACTOR is adjudged bankrupt, either voluntarily or involuntarily, then this Agreement shall terminate effective on the date and at the time the bankruptcy petition is filed.

ARTICLE 15 DISPUTE RESOLUTION

15.1 **Arbitration.** In addition to any other remedy provided hereunder, the CITY, at its option, may use arbitration to resolve any controversy or claim arising out of or relating to this Contract if arbitration is elected by the CITY. Any controversy or claim arising out of or relating to this Contract, or breach thereof, may be settled by arbitration in accordance with the rules of the American Arbitration Association and judgment upon the award rendered by the arbitrators may be entered into by any court having jurisdiction thereof. In the event arbitration is elected by the CITY, such controversy or claim shall be submitted to one arbitrator selected from the National Panel of The American Arbitration Association.

15.2 **Operations During Dispute.**

15.2.1 In the event that a dispute, if any, arises between the CITY and the CONTRACTOR relating to this agreement performance or compensation hereunder, the CONTRACTOR shall continue to render service in full compliance with all terms and conditions of this agreement as interpreted by the CITY regardless of such dispute.

15.2.2 The CONTRACTOR expressly recognizes the paramount right and duty of the CITY to provide adequate maintenance of the City's Property, and further agrees, in consideration for the execution of this Agreement, that in the event of such a dispute, if any, it will not seek injunctive relief in any court, but will negotiate with the CITY for an adjustment on the matter or matters in dispute and, upon failure of said negotiations to resolve the dispute, may present the matter to a court of competent jurisdiction in an appropriate suit therefore instituted by it or by the CITY.

15.2.3 Notwithstanding the other provisions in this Section, the City reserves the right to terminate the Agreement at any time, whenever the service provided by the CONTRACTOR fails to meet reasonable standards of the trade after the CITY gives written notice to the CONTRACTOR of the deficiencies as set forth in the written notice within fourteen (14) days of the receipt by the CONTRACTOR of such notice from the CITY.

ARTICLE 16
MISCELLANEOUS

16.1 **Ownership of Documents.** Reports, surveys, studies, and other data provided in connection with this Agreement are and shall remain the property of CITY, whether or not the project for which they are made is completed.

COMPANY/PROPOSER

REQUESTED MODIFICATIONS/CLARIFICATIONS TO THE TERMS AND CONDITIONS

"Disposable deposit bags must comply with banking requirements and standards. The bags must be supplied to all locations ~~at no additional cost to the City~~ during the term of the contract. Additionally all cash, coin check bags and coin packs must be extra large, tamper evident and of sufficient quality and durability to avoid splitting and made of a material that is transparent or translucent and meet the bank's requirements."

In order to provide the City with our most aggressive pricing structure, our pricing does not include tamper evident bank bags. Pricing for various sizes of bags has been provided.

If the City will provide the number and size of bags required by each location, we can adjust our pricing to include tamper evident bags.

We believe the City will realize a cost savings by purchasing bags as an individual commodity rather than as an adjunct to transportation services.

Default Provision - "In the case of default by the bidder or contractor the City of Pembroke Pines may procure the articles or services from any other sources ~~and hold the bidder or contractor responsible for any excess costs occasioned or incurred thereby.~~"

If the City is ever dissatisfied with the services provided by Dunbar Armored, the City has the right with 30-day's notice to cancel this agreement. Any subsequent arrangements for armored car service will be the sole responsibility and liability of the City. We would request that the Default Provision be amended as indicated.

A detailed statement to document the protection guaranteed the City of Pembroke Pines on deposits and the procedures for reimbursement should deposits be lost or misplaced.

All deposits receipted for by Dunbar Armored are fully protected by our "All Risk" cargo coverage. There is no better insurance than the armored car "All Risk" coverage, known as transit and storage insurance, which Dunbar Armored offers.

There are no exceptions, no warranties and no conditions, except the standard war and nuclear exclusion. "All Risk" armored car cargo liability will cover currency, coin, checks and other valuables against all risks of physical loss of or damage to the insured property up to your stated liability limits. Checks are subject to reconstruction.

Our armored car "All Risk" insurance will provide for the safety of all funds in our possession. The current policy limit is \$600,000,000.00 per occurrence, (through XL Specialty and Lloyds of London).

This policy also bonds our employees and provides aggregate maximum loss coverage for employee fidelity coverage as extra assurance of performance. This insurance is included in our transit and storage policy.

A certificate will be issued should we be awarded a contract. The certificate will show liability limits consistent with your specifications.

Claims

All claims must be submitted in writing within thirty (30) days of occurrence. The claim letter should include the date of the occurrence, the amount of the claim, and the basis for determining that Dunbar is responsible.

A claims adjuster is assigned to all claims covered by insurance. Certain business records must be provided to substantiate the amount of loss.

This would include a copy of the receipt signed by Dunbar, a copy of the deposit ticket, a check listing, and any other records maintained through the normal course of business that would substantiate the loss.

Claims are normally processed in two to four weeks. Specific claims information is considered confidential and proprietary.

Christina,

The servicing branch indicates that picking up the Charter School East causes delays on the route that on occasion impact same day delivery to the bank for your other locations.

If the Charter School East could be delivered to the bank on the next business day it would assure that your other deposits are delivered in time.

Can you accommodate this request?

Good Morning, Christina

Yesterday afternoon I notified the servicing branch of the problem with the delivery of your deposits. I also escalated to our RVP.

10/16/2012

This is the corrective action plan suggested by the Dunbar team: "Effective immediately Dunbar will hold a meeting with all of the Driver Guards (especially those assigned to the servicing route) and go over the importance of ensuring that they are at T.D. Bank for the deposits of Pembroke Pines to be dropped off on time.

Dunbar branch management will monitor on a daily basis until this is no longer an issue."

I would appreciate it if you would notify me right away if these problems continue.

Thank you,

Rosemary

Hi, all:

We have had an ongoing issue with Dunbar that only started *after* their contract was renewed. We have instructed Dunbar, and they have agreed, that the City Hall and Utilities bags are to be picked up and delivered to the bank no later than 1 PM on Monday through Thursday. The bank advises Finance that Dunbar is not adhering to the schedule.

Dear Mr. Harrel

Dunbar Armored appreciates the opportunity to renew our services with the City of Pembroke Pines. We are committed to providing you with the high level of service that you expect and with our superior history of customer service, we feel that Dunbar is the best choice to provide your locations with secure, reliable Armored Car Services. Unfortunately, due to the increased cost of employee's salaries and benefits, we are unable to hold the current rates in place for this renewal period. Dunbar Armored is requesting for a 2.7% CPI increase for all locations.

Subject: Dunbar Armored Car Services - CPI Price Increase Request

Lisa,

Per our conversation earlier regarding the 2.7% increase requested by Dunbar, attached is Original Agreement – Fourth Amendment. The Price Increase from the Original Agreement to the First Amendment was the addition of the Charter Schools to the route, and the Price Increase from the Third Amendment to Fourth Amendment was due to a 0.9% CPI increase.

I also attached the documentation that was given to the City for the CPI Increase during the Fourth Amendment. I can go ahead and request something similar for this Price Increase if needed.

Dunbar Armored Car Services Price Increase					
Original Agreement (2010-2012)					\$23,160.80
First Amendment (Added Charter Schools)					\$39,514.80
Second Amendment (2012-2014)					\$39,514.80
Third Amendment (2014-2016)					\$39,514.80
Fourth Amendment (2016-2018)					\$39,870.43
Fifth Amendment (2018-2020)					\$40,667.84

The food index increased 0.2 percent over the month, its largest rise since September 2015.

The index for all items less food and energy rose 0.2 percent in February. The indexes for shelter, recreation, apparel, airline fares, motor vehicle insurance, education, and medical care were among those that increased in February. Indexes that declined include communication, used cars and trucks, new vehicles, and household furnishings and operations.

Consumer Price Index Geographic Revision for 2018

In January 2018, BLS will introduce a new geographic area sample for the Consumer Price Index (CPI). The 2018 revision utilizes the 2010 Decennial Census and incorporates an updated area sample design, changes the frequency of publication for several local area indexes, and establishes some new local area and aggregate indexes. The first indexes using the new structure will be published in February 2018. Additional information on the geographic revision is available at: www.bls.gov/cpi/georevision2018.htm.

A Riverside index will be published for odd months beginning January, 2018.

⁸ This index will be discontinued after December, 2017. Washington DC and Baltimore will have separate indexes beginning January, 2018. A Washington DC index will be published for odd months beginning January, 2018. A Baltimore index will be published for even months beginning February, 2018.

⁹ Indexes on a November 1996=100 base.

- Data not available.

NOTE: Local area indexes are byproducts of the national CPI program. Each local index has a smaller sample size than the national index and is, therefore, subject to substantially more sampling and other measurement error. As a result, local area indexes show greater volatility than the national index, although their long-term trends are similar. Therefore, the Bureau of Labor Statistics strongly urges users to consider adopting the national average CPI for use in their escalator clauses.

NOTE: Index applies to a month as a whole, not to any specific date.

- Data not available.

NOTE: Local area indexes are byproducts of the national CPI program. Each local index has a smaller sample size than the national index and is, therefore, subject to substantially more sampling and other measurement error. As a result, local area indexes show greater volatility than the national index, although their long-term trends are similar. Therefore, the Bureau of Labor Statistics strongly urges users to consider adopting the national average CPI for use in their escalator clauses.

NOTE: Index applies to a month as a whole, not to any specific date.

Technical Notes

Brief Explanation of the CPI

The Consumer Price Index (CPI) is a measure of the average change in prices over time of goods and services purchased by households. The U.S. Bureau of Labor Statistics (BLS) publishes CPIs for two population groups: (1) The CPI for Urban Wage Earners and Clerical Workers (CPI-W), which covers households of wage earners and clerical workers that comprise approximately 28 percent of the total population and (2) the CPI for All Urban Consumers (CPI-U) and the Chained CPI for All Urban Consumers (C-CPI-U), which covers approximately 89 percent of the total population and include, in addition to wage earner and clerical worker households, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPIs are based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and other goods and services that people buy for day-to-day living. Prices are collected each month in 87 urban areas across the country from about 6,000 housing units and approximately 23,000 retail establishments—department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index. Prices of fuels and a few other items are obtained every month in all 87 locations. Prices of most other commodities and services are collected every month in the three largest geographic areas and every other month in other areas. Prices of most goods and services are obtained through personal visits or telephone calls by BLS trained representatives.

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. For the CPI-U and CPI-W, separate indexes also are published by size of city, by region of the country, for cross-classifications of regions and population-size classes, and for 27 local areas. Area indexes do not measure differences in the level of prices among cities; they measure only the average change in prices for each area since the base period. For the C-CPI-U, data are issued only at the national level. It is important to note that the CPI-U and CPI-W are considered final when released, but the C-CPI-U is issued in preliminary form and is subject to three quarterly revisions before the final version.

The index measures price change from a designated reference date. For the CPI-U and the CPI-W, the reference base is 1982–84 = 100.0. The reference base for the C-CPI-U is December 1999=100.0. An increase of 16.5 percent from the reference base, for example, is shown as 116.5. This change also can be expressed in dollars as follows: the price of a base-period market basket of goods and services in the CPI has risen from \$10 in 1982–84 to \$11.65.

For further details, visit the CPI homepage on the Internet at <https://www.bls.gov/cpi> or contact our CPI Information and Analysis Section at (202) 691-7000.

Calculating index changes

Movements of the indexes from one month to another usually are expressed as percent changes, rather than changes in index points, because index point changes are affected by the level of the index in relation to its base period, whereas percent changes are not. The example shown in the box on this page illustrates the computation of index point and percent changes.

Index point change

CPI	202.416
Less previous index	201.800
Equals index point change	.616

Percent change

Index point difference	.616
Divided by the previous index	201.800
Equals	0.003
Results multiplied by one hundred	0.003 x 100
Equals percent change	0.3

Regions defined

The states in the four regions are listed below.

The Northeast--Connecticut, Maine, Massachusetts, New Hampshire, New York, New Jersey, Pennsylvania, Rhode Island, and Vermont.

The Midwest--Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

The South--Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, and the District of Columbia.

The West--Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

Energy prices

Prices usually are available for the U.S. city average, 13 large metropolitan areas, the 4 census regions, 3 size classifications, and 10 areas reflecting the 4 census regions cross-classified by the 3 population sizes. However, not all energy commodities and services are used in every area of the country. Fuel oil, for example, is not a common heating fuel in some urban areas, particularly in the South and West. Where no average prices are available, the designation NA appears. This designation also appears if the data sufficiency criteria have not been met in any given month. For example, if there are fewer than five usable fuel oil prices for a published city or region size class, no fuel oil prices for the area will be published.

All prices are collected monthly by BLS representatives in the urban areas priced for the CPI. Prices for natural gas and electricity include fuel and purchased gas adjustments and all applicable taxes. Fuel oil and gasoline prices include applicable Federal, State, and local taxes.

Natural gas and electricity. Natural gas prices are reported in therms, which are a measure of heating value. Electricity prices are given in kilowatt hours (kwh). It should be noted that bills priced for the CPI not only are for different consumption amounts, but may also be calculated from different types of residential rate schedules. *The average prices per therm and per kilowatt hour are not, therefore, generally suitable for use in place-to-place price comparisons.*

Fuel oil. Only #2 fuel oil (home heating oil) is priced. Prices are collected, in most cases, for quantities greater than 1 gallon. These prices are converted to a gallon price for this program. Fuel oil prices reflect discounts for quantity or quick payment.

Gasoline and automotive diesel fuel. Gasoline and diesel prices, shown in table P3, are collected at the pump from a sample of full service, miniservice, and self-service gas stations. Approximate British Thermal Unit (BTU) values for some energy items are as follows, according to the source indicated:

1 therm = 100,000 BTUs (U.S. Department of Energy)

1 kwh = 3,412 BTUs (Edison Electric Institute)

1 gallon #2 fuel oil = 140,000 BTUs (U.S. Department of Energy)

Food and beverage prices

Actual weighted average prices for food and beverages are calculated each month at the national level and for the four census geographic regions, as shown in table P4. As a result of changes in price collection methodology and sample sizes, average prices for individual cities cannot, in general, be produced. It is hoped, however, that regional average prices will help to satisfy the need for local area data. It should be noted that the average prices for food in this report reflect variations in brand, quality, and size among geographic areas. Users of average food prices should be aware that these differences exist.

Because a number of food commodities are not available in all areas on a year-round basis, prices will not appear in some months for some regions or for the U.S. city average. In other instances, sufficient prices may not be available due to temporary disruptions in supplies. Where no average prices are available, the designation NA appears. When a price is not available from an individual store in any month, an estimated price will be calculated for the missing item and used in computing the average price. For cases in which the proportion of estimated prices used to calculate the average is considered too high, the average price is not published, and NA appears for that item in the table.

Because of space limitations in the table, the description for each item is abbreviated. Detailed specifications are available from BLS information offices or from the Washington office, upon request.

A Note on the Use of Seasonally Adjusted and Unadjusted Data

Introduction

The Consumer Price Index (CPI) produces both unadjusted and seasonally adjusted data. Seasonally adjusted data are computed using seasonal factors derived by the X-13ARIMA-SEATS Seasonal Adjustment Method. These factors are updated each February, and the new factors are used to revise the previous five years of seasonally adjusted data. For more information on data revisions and exceptions to the usual revision schedule, please see the Fact Sheet on Seasonal Adjustment (<https://www.bls.gov/cpi/cpisaqanda.htm>) and the Timeline of Seasonal Adjustment Methodological Changes (<https://www.bls.gov/cpi/cpiseastimeline.htm>).

How to Use Seasonally Adjusted and Unadjusted Data

For analyzing short-term price trends in the economy, seasonally adjusted changes are usually preferred since they eliminate the effect of changes that normally occur at the same time and in about the same magnitude every year—such as price movements resulting from changing climatic conditions, production cycles, model changeovers, holidays, and sales. This allows data users to focus on changes that are not typical for the time of year.

The unadjusted data are of primary interest to consumers concerned about the prices they actually pay. Unadjusted data are also used extensively for escalation purposes. Many collective bargaining contract agreements and pension plans, for example, tie compensation changes to the Consumer Price Index before adjustment for seasonal variation. BLS advises against the use of seasonally adjusted data in escalation agreements because seasonally adjusted series are revised annually.

Intervention Analysis

The Bureau of Labor Statistics uses Intervention Analysis Seasonal Adjustment for some CPI series. Sometimes extreme values or sharp movements can distort the underlying seasonal pattern of price change. Intervention Analysis Seasonal Adjustment is a process by which the distortions caused by such unusual events are estimated and removed from the data prior to calculation of seasonal factors. The resulting seasonal factors, which more accurately represent the seasonal pattern, are then applied to the unadjusted data.

2017 Series Adjusted Using Intervention Analysis Seasonal Adjustment

For the seasonal factors introduced in January 2017, BLS adjusted 40 series using Intervention Analysis Seasonal Adjustment, including selected food and beverage items, motor fuels and natural gas. For example, this procedure was used for the *Motor fuel* series to offset the effects of events such as the 2009 return to normal pricing after the worldwide economic downturn in 2008.

Revision of Seasonally Adjusted Indexes

Seasonally adjusted data, including the *U.S. city average All items* index levels, are subject to revision for up to five years after their original release. Every year, economists in the CPI calculate new seasonal factors for seasonally adjusted series and apply them to the last five years of data. Seasonally adjusted indexes beyond the last five years of data are considered to be final and not subject to revision. In January 2017, revised seasonal factors and seasonally adjusted indexes for 2012-2016 were calculated and published. For directly adjusted series, the seasonal factors for 2016 will be applied to data in 2017 to produce the seasonally adjusted 2017 indexes.

Determining Seasonal Status

Each year the seasonal status of every series is reevaluated based upon certain statistical criteria. Using these criteria, BLS economists determine whether a series should change its status: from "not seasonally adjusted" to "seasonally adjusted", or vice versa. If any of the 81 components of the *U.S. city average all items* index change their seasonal adjustment status from seasonally adjusted to not seasonally adjusted, not seasonally adjusted data will be used in the aggregation of the dependent series for the last five years, but the seasonally adjusted indexes before that period will not be changed. 27 of the 81 components of the *U.S. city average all items* index are not seasonally adjusted for 2017.

Metropolitan areas

BLS publishes price indexes for three major metropolitan areas monthly:

Chicago-Gary-Kenosha, IL-IN-WI

Los Angeles-Riverside-Orange County, CA

New York-Northern New Jersey-Long Island,
NY-NJ-CT-PA

Data for an additional 11 metropolitan areas are published every other month [on an odd- (January, March, etc.) or even- (February, April, and so forth) month schedule] for the following areas:

Atlanta, GA	-even
Boston-Brockton-Nashua, MA-	
NH -ME-CT	-odd
Cleveland-Akron, OH	-odd
Dallas-Fort Worth, TX	-odd
Detroit-Ann Arbor-Flint, MI	-even
Houston-Galveston-Brazoria, TX	-even
Miami-Fort Lauderdale, FL	-even
Philadelphia-Wilmington

San Francisco-Oakland	
-San Jose, CA	-even
Seattle-Tacoma-Bremerton, WA	-even
Washington-Baltimore,	
DC-MD-VA-WV	-odd

How to Obtain Consumer Price Index Information

CPI information is available from BLS electronically, through publication subscriptions, and via telephone and fax through automated recordings. Information specialists also are available in the national and information offices to provide help and to respond to questions.

Electronic access to CPI data

BLS on the Internet. Through the Internet, BLS provides free, continuous access to published CPI data and press releases. The most recent month's CPI is made available immediately at the time of release. Additionally, a database called LABSTAT, containing current and historical data for the CPI, is accessible.

World Wide Web. BLS maintains a Web site at <https://www.bls.gov> on the Internet. This BLS homepage provides access to LABSTAT, as well as links to program-specific homepages. The CPI homepage <https://www.bls.gov/cpi/> provides other CPI information, as well as indexes. This includes a brief explanation of methodology, frequently asked questions and answers, contacts for further information, and explanations of how the CPI program handles special items, such as medical care and housing. In addition, CPI press releases and historical data for metropolitan areas can be accessed by linking to the regional office home pages from the main BLS Web site listed above.

Recorded CPI data

Summary CPI data are provided on 24-hour recorded messages. Detailed CPI information may be obtained by calling (202) 691-5200. A touch-tone telephone is recommended, as this system allows the user to select specific indexes from lists of available data.

Recorded summaries of CPI data also may be obtained by calling any one of the metropolitan area CPI hotlines listed next. These hotline summaries typically include data for the U.S. city average, as well as for the specified area. The recordings are approximately 3 minutes in length, do not require a touch-tone telephone, and are available 24 hours a day, 7 days a week.
