**Subject:** Emergency Purchase of Water Valves

Mr. Dodge,

The City has experienced valve failures on the 24-inch water main on Pines Boulevard. Proper function of these valves is critical to the operation of the water system. As such, I would like to purchase four replacement valves on an emergency basis; some for immediate installation and some to replace stock. Attached please find a quotation in the amount of \$14,880.00 for one type and \$13,640 for the other for a total of \$55,800 (1x\$14,880 + 3x\$13,640). The funding is available in 471/6032/64400 Water Distribution Other Equipment. Please reply with your approval.

Thank you,  
Jon Cooper
