All such contract adjustments must be made within 1 year following the end of the contract.

(b) Should the City's Administrative Staff be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at a price the City's Administrative Staff determines to be fair, competitive, and reasonable, negotiations with that firm must be formally terminated. The City's Administrative Staff shall then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the City's Administrative Staff must terminate negotiations. # **ARCHITECT-ENGINEER QUALIFICATIONS**

#### OMB Control Number: 9000-0157 Expiration Date: 12/31/2020

Paperwork Reduction Act Statement - This information collection meets the requirements of 44 USC § 3507, as amended by section 2 of the Paperwork Reduction Act of 1995. You do not need to answer these questions unless we display a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is 9000-0157. We estimate that it will take 29 hours (25 hours for part 1 and 4 hours for Part 2) to read the instructions, gather the facts, and answer the questions. Send only comments relating to our time estimate, including suggestions for reducing this burden, or any other aspects of this collection of information to: General Services Administration, Regulatory Secretariat Division (M1V1CB), 1800 F Street, NW, Washington, DC 20405.

#### PURPOSE

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by 40 U.S.C. chapter 11, Selection of Architects Engineers, and Part 36 of the Federal Acquisition Regulation (FAR).

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The Act then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

#### **GENERAL INSTRUCTIONS**

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

#### INDIVIDUAL AGENCY INSTRUCTIONS

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

#### Part II - General Qualifications

See the "General Instructions" on page 1 for firms with branch offices. Prepare Part II for the specific branch office seeking work if the firm has branch offices.

1. Solicitation Number. If Part II is submitted for a specific contract, insert the agency's solicitation number and/or project number, if applicable, exactly as shown in the public announcement or agency request.

2a-2e. Firm (or Branch Office) Name and Address. Self-explanatory.

3. Year Established. Enter the year the firm (or branch office, if appropriate) was established under the current name.

4. Unique Entity Identifier. Insert the unique entity identifier issued by the entity designated at SAM. See FAR part 4.6.

5. Ownership.

a. Type. Enter the type of ownership or legal structure of the firm (sole proprietor, partnership, corporation, joint venture, etc.).

b. Small Business Status. Refer to the North American Industry Classification System (NAICS) code in the public announcement, and indicate if the firm is a small business according to the current size standard for that NAICS code (for example, Engineering Services (part of NAICS 541330), Architectural Services (NAICS 541310), Surveying and Mapping Services (NAICS 541370)). The small business categories and the internet website for the NAICS codes appear in FAR part 19. Contact the requesting agency for any questions. Contact your local U.S. Small Business Administration office for any questions regarding Business Status.

6a-6c. Point of Contact. Provide this information for a representative of the firm that the agency can contact for additional information. The representative must be empowered to speak on contractual and policy matters.

7. Name of Firm. Enter the name of the firm if Part II is prepared for a branch office.

8a-8c. Former Firm Names. Indicate any other previous names for the firm (or branch office) during the last six years. Insert the year that this corporate name change was effective and the associated unique entity identifier. This information is used to review past performance on Federal contracts.

9. Employees by Discipline. Use the relevant disciplines and associated function codes shown at the end of these instructions and list in the same numerical order. After the listed disciplines, write in any additional disciplines and leave the function code blank. List no more than 20 disciplines. Group remaining employees under "Other Employees" in column b. Each person can be counted only once according to his/her primary function. If Part II is prepared for a firm (including all branch offices), enter the number of employees by disciplines in column c(1). If Part II is prepared for a branch office, enter the number of employees by discipline in column c(2) and for the firm in column c(1).

10. Profile of Firm's Experience and Annual Average Revenue for Last 5 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the experience categories which most accurately reflect the firm's technical capabilities and project experience. Use the relevant experience categories and associated profile codes shown at the end of these instructions, and list in the same numerical order. After the listed experience categories, write in any unlisted relevant project experience categories and leave the profile codes blank. For each type of experience, enter the appropriate revenue index number to reflect the professional services revenues received annually (averaged over the last 5 years) by the firm or branch office for performing that type of work. A particular project may be identified with one experience category or it may be broken into components, as best reflects the capabilities and types of work performed by the firm. However, do not double count the revenues received on a particular project.

11. Annual Average Professional Services Revenues of Firm for Last 3 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the appropriate revenue index numbers to reflect the professional services revenues received annually (averaged over the last 3 years) by the firm or branch office. Indicate Federal work (performed directly for the Federal Government, either as the prime contractor or subcontractor), non-Federal work (all other domestic and foreign work, including Federally-assisted projects), and the total. If the firm has been in existence for less than 3 years, see the definition for "Annual Receipts" under FAR 19.101.

12. Authorized Representative. An authorized representative of the firm or branch office must sign and date the completed form. Signing attests that the information provided is current and factual. Provide the name and title of the authorized representative who signed the form.

# SCOPE OF SERVICES

### Street Lighting Inventory and Illumination Levels Study City of Pembroke Pines RFQ PSEN-19-10

### 1.0 BACKGROUND:

The Consultants, A&P Engineers and HBC Engineering Company, have been retained by the City of Pembroke Pines (CPP) to provide engineering services for RFQ PSEN-19-10.

### 2.0 <u>PURPOSE:</u>

The purpose of this documents is to describe the scope of work and the responsibilities of the CONSULTANT in connection with the preparation of a complete set of documents as requested by this RFQ.

### 3.0 <u>SCOPE:</u>

Under the tasks, the CONSULTANT will provide the following scope of work:

### Task 1 (Establish Illumination Criteria and Minimum Illumination Levels)

### The Consultant responsibilities include:

- Conduct research on the FDOT Design Manual and Greenbook, American Association of State Highway and Transportation Officials(AASHTO), Illuminating Engineering Society (IES) Recommended Practice 8, Roadway Lighting (RP-8) and Federal Highway Administration(FHWA) Lighting Handbook to determine the illumination criteria and minimum illumination levels which would fit best for the City of Pembroke Pines street lights.
- Coordinate with the City to determine the best illumination criteria and minimum illumination levels.

### <u>Deliverables</u>

- Draft Technical Memorandum
- Final Technical Memorandum

### Task 2 (Compile detailed inventory and report on the quantity and type of existing street lighting)

The Consultant responsibilities include:

- Perform field work to compile a detailed inventory of the existing roadway lighting system for all existing street lights on City owned roadways. See sample inventory on Appendix A, Tables 1 to 3
- As stated on the RFQ, the inventory will consider only the street lights on City owned roadways as defined and coordinated with the City Engineer. All FDOT, Broward County or private roads are not included as part of this scope of work.

### <u>Deliverables</u>

- Draft Report
- Final Report

# Task 3 (Prepare a photometric light study for all streetlights on City owned streets and presenting at a minimum the light intensity and uniformity.)

The Consultant responsibilities include:

- Develop a Work Plan to divide the entire project by corridors.
- Perform point by point photometric analysis of existing streetlight system along City own streets with AGi32 Illumination Engineering Software to represent the current lighting intensity and uniformity conditions

### **Deliverables**

- Draft Lighting Photometric report per corridor
- Final Lighting Photometric report per corridor

### Task 4 (Evaluate and prioritize potential infrastructure improvements)

The Consultant responsibilities include:

• Develop an Evaluation and Prioritization Plan (EPP) to determine the potential infrastructure improvements and prioritization of each corridor by using FPL Luminaires. The EPP would be based on information obtained in Task 2 (Detailed Inventory) and Task 3 (Existing Lighting Conditions).

### Deliverables

- Draft EPP
- Final EPP

# Task 5 (Provide general guidelines for street lighting which denotes typical locations and spacing of roadway lighting)

### The Consultant responsibilities include:

- Coordination with City of Pembroke Pines to select FPL supplied luminaires accordingly (Type, Wattage, Voltage & IES-format, photometric data files) to be used to develop general guidelines.
- Develop the City's General Guidelines for Street Lighting which denotes typical locations (roadway sections including arterial/collector and local neighborhood roadways as a minimum) and spacing of roadway lighting will be provided using AGi32 Lighting Engineering Software (Roadway Optimizer Tool) to determine the typical locations and spacing of roadway lighting in coordination with FPL to meet the established minimum parameters on Task 1.
- Coordination with City of Pembroke Pines to relocate/upgrade/transfer the existing City street lighting system to FPL

### Deliverables

- Draft CPP General Guidelines for Street Lighting
- Final CPP General Guidelines for Street Lighting

### Task 6 (Prepare a Roadway Lighting and Policy Development Report)

The Consultant responsibilities include:

• Roadway Lighting policy will be provided according the City requirements and standards to provide commonly accepted lighting levels necessary for public safety on City streets and sidewalks.

<u>Deliverables</u>

- Draft Report
- Final Report

### Task 7 (Review application of LED lighting.)

The Consultant responsibilities include:

 Review application of LED lighting to have a standardized method of reviewing and approving Conventional, High Mast, Sign, Under Deck, Wildlife Sensitive LED luminaires and FPL LED luminaires. Test results and certifications of submittals including, but not limited to, light distribution curves, light wavelengths, temperature measurements, LM-79, LM-80, TM-21, UL 1598, & UL1449.

<u>Deliverables</u>

- Draft Report
- Final Report

#### Task 8 (Create Resident Streetlight Request procedure)

#### The Consultant responsibilities include:

• Resident Streetlight Request Procedure will be developed in accordance with the City's requirements. The intention is to provide the residents a simple solicitation process to request streetlight by mailing a form similar to sample in Appendix B.

Deliverables

- Draft Report
- Final Report

### Task 9 (Develop a Roadway Lighting Policy and standard that can be applied to evaluate lighting along <u>City streets</u>)

The Consultant responsibilities include:

• Develop the City's Roadway Lighting Policy and Standard by coordinating the process and criteria to be used in the evaluation and development of street lighting designs. The intention is to provide the City a comprehensive document detailing equipment standardization, roadway lighting design criteria and standard specifications.

#### **Deliverables**

- Draft CPP Roadway Lighting Policy and Standards
- Final CPP Roadway Lighting Policy and Standards

#### 4.0 STAFF HOURS ESTIMATE:

The Staff Hours Estimate for this Scope of Work is shown on Appendix C.
