Subject: Public Safety Radio Programming

This sender is trusted.

Chief Shimpeno and Chief Picarello:

I received your messages regarding the authorized providers for programming services for radio subscriber units using the Broward County Public Safety Radio System. The County's current position is that we've authorized only Motorola as the provider through which programming services are to be contracted. However, for the City of Pembroke Pines, we have also authorized SE Datacom to provide programming services for both the City Law and Fire agencies.

I hope this helps. Please let me know if you have any further questions, or if you require any additional information.

Thank you.

Brett H. Bayag, Assistant Director
Regional Emergency Services and Communications
REGIONAL COMMUNICATIONS AND TECHNOLOGY DIVISION
