Project Description / Background

Michael D. Miles, agent for contract purchaser, requests consideration to rezone the subject +- 3.98-acre property from B-2 (Community Business) to C-1 (Commercial) on Tract A, A-1 (Limited Agricultural) on Tract B with associated commercial flexibility allocation (Tract A) and voluntary restrictive covenants. The subject property is generally located south of Pines Boulevard and east of 202 Avenue.

The site is currently part of the Pines 200 East plat which was approved in 2002. The Pines 200 East property currently contains a parking field which is being used for the adjacent commercial plaza (Pines 200 Plaza) to the west. On December 12, 2019, the Planning and Zoning Board approved a parking variance (ZV 2019-02) for the Pines 200 Plaza, reducing the parking required for that site and therefore allowing the subject site (Pines 200 East) to be redeveloped.

The subject Pines 200 East Plat is currently divided into three the following three tracts as depicted on the attached survey:

- Tract A – 2.726 Acres
- Tract B – 1.251 Acres
- Tract C - .265 Acres

Tracts A and B of the plat are currently being purchased by the applicant and are subject to tonight's request.

The applicant is requesting the changes above in expectation of building a Tractor Supply Co. Retail Store on Tract A while providing a landscape buffer on Tract B.

Tractor Supply Co. is a retailer of farm/ranch equipment and maintenance products; general maintenance products; animal (domestic and farm) feeds, equipment and health products; horse and rider tack, equipment and related products; bird feed, pet grooming, housing and related products; lawn and garden equipment and products; tools and hardware; farm vehicle equipment and maintenance products; clothing and footwear.

A plat note change and site plan will be provided for future City review should this application be approved.

DETAILED REQUEST:

The applicant requests consideration for the following items:

1. Rezone Tract A of the property from B-2 (Community Business) to C-1 (Commercial).
2. Allocation of commercial flexibility to Tract A in accordance with Broward County Administrative Rules.
3. Consideration of voluntary restrictive covenants to restrict uses on the property within the proposed C-1 (Commercial) district. The voluntary restrictive covenants will further restrict the property to the following uses:
 - Tract A of the Property shall be used only for a retail operation, which may include one or more of the following uses as accessory uses to the retail operation: "agricultural implements," "feed," "fertilizer," "fuel," "machinery," and "tractors" sales and display facility (as designated in the Code) with appurtenant outdoor display area, "bottle gas

storage, filling, and distribution,” (as designated in the Code), and “storage warehouse” (as designated in the Code).

- Tract A will also allow all B-2 (Community Business) uses.
4. Rezone Tract B of the property from B-2 (Community Business) to A-1 (Limited Agricultural).

Tractor Supply Co. requires C-1 (Commercial) zoning for outdoor storage / display as well as the other ancillary uses as listed within the voluntary restrictive covenant in order to operate their business.

SURROUNDING PROPERTIES:

The existing zoning and land use plan designations of the surrounding properties to the subject site are as follows:

North – Pines Boulevard – Planned Unit Development (PUD) / Irregular Residential

East – Single Family District (RS-7) / Irregular Residential

South – Single Family District (RS-7) / Irregular Residential

West – Community Business (B-2) / Agricultural* **(4.2 Acres of Commercial Flexibility Previously Applied to this Property)**

ANALYSIS:

Compatibility with Adjacent Use

Staff reviewed this application and finds that the allocation of commercial flexibility and associated commercial zoning request on Tract A is compatible with the existing commercial shopping center use (Pines 200 Plaza) directly to the west of this site. The adjacent Pines 200 Plaza received similar allocation of commercial flexibility on that property in the late 1990's.

The rezoning of Tract B from Community Business (B-2) to Limited Agricultural (A-1) further supports through zoning that the Tract will remain as a buffer between the future Tractor Supply project and the Alhambra residential community to the south. Staff notes that a similar Limited Agricultural (A-1) buffer condition exists on between multiple commercial properties located south of Pines Boulevard and west of Southwest 184 Avenue and the Estancia residential community.

The applicant provides a letter indicating that the commercial flex allocation achieves the following objectives / policies of the comprehensive plan:

- OBJECTIVE I
Continue to utilize land development standards and design guidelines that provide a framework by which high quality development can be established, sustained, and protected.

- Policy 1.6 - Continue to implement land development regulations providing for all residential densities to be properly buffered from non-residential activities.
- OBJECTIVE II
A variety of employment opportunities should continue to be encouraged to balance the City's tax base, provide jobs and employment centers in close proximity to affordable housing, and improve economic stability and mobility by giving special attention to the neediest and disadvantaged populations.
- Policy 2.5 - Continue to encourage the location of commercial, industrial and employment centers near public transportation facilities to improve access to employment opportunities.
- Policy 18.2 - Continue to implement land development regulations to insure compatibility and buffering between adjacent residential and nonresidential uses.

Staff reviewed the proposal and finds that the rezoning and commercial allocation generally comply with the comprehensive plan objectives and policies as listed by the applicant.

Staff Recommendation: Transmit to the City Commission with a favorable recommendation.

The following are my comments regarding the above Re-Zoning:

- ~~1. As part of this re-zoning a Flex allocation converting underlying Office Park Land Use on parcels "A" & "B" to Commercial and Agricultural Land Uses, respectively, must be processed.~~
2. Provide existing plat to show proposed square footage is allowed, or a Delegation Request must be processed to add additional square footage. **Provided and a delegation request will be needed to update the existing plat note. Contact Joe Yaciuk to discuss new note.**

Please contact me with any questions.
