**Re: Water Main Certification of Completion
SAFStor Pembroke Pines
WGI Project No. 3074.01**

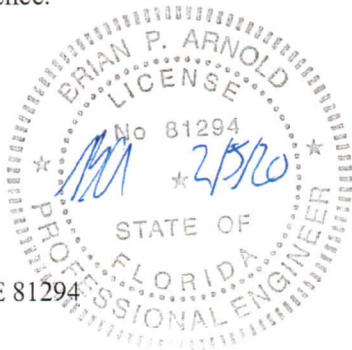

Dear Mr. England,

As a Professional Engineer registered in the State of Florida, to the best of my knowledge, information and belief, it is my opinion, based on field reviews under my responsible charge and testing and as-built information provided by the contractor, the permitted work for the subject project has been constructed in substantial accordance with the plans and specifications, and deviations, if any, will not prohibit the systems from functioning as planned.

Please contact me if you require additional information. We would appreciate your review and approval at the earliest convenience.

Sincerely,

WGI
