VICE MAYOR SIPLE-ITEM #1: DISCUSSION AND POSSIBLE ACTION ON APPROVING THE NW 122ND AVENUE SPEED HUMP WAIVER REQUEST TO ALLOW A SPEED HUMP INSTALLATION.

BACKGROUND SUMMARY AND EXPLANATION

1. Residents of NW 122nd Ave south of Taft Street submitted an application for a speed hump. They obtained the required number of signatures. The street meets all the eligibility requirements. The required studies if performed at this time would not represent the normal/pre-virus traffic conditions so I am requesting that these studies be waived in order to expedite installation of this resident requested speed hump. The City Engineer has verified the information submitted and has preliminarily sited the speed hump.
